VOLUME 49: SUBJECT INDEX

Key: P = Proceedings: S = Supplement

A

Abram's needle biopsy, Investigation of pleural effusion: the new Olympus LTF semiflexible fibreoptic thoracoscope in comparison with Abram's needle biopsy, **429P**

Accident and emergency department, Effect of a preprinted form on the management of acute asthma in an A&E department, **1073P**

Acclimatisation, Adaptation and acclimatisation in humans and animals at high altitude, **S9**

Acetaldehyde, Potentiating effect of inhaled acetaldehyde on bronchial responsiveness to methacholine in asthmatic subjects, **644**

Acetazolamide
- Effect of acetazolamide and amiloride against sodium metabisulphite-induced bronchoconstriction in mild asthma, **1096**
- Effect of loop diuretics on cholinergic neurotransmission in human airways in vitro, **657**

***N*-Acetyl cysteine**, Effect of *N*-acetyl cysteine on the concentrations of thiols in plasma, bronchoalveolar lavage fluid, and lung tissue, **670**

Acid air measurements, Acid air measurements in East Birmingham, **399P**

Acid anhydrides, Association of positive skin prick tests with work related chest symptoms and bronchial hyperresponsiveness in a study of allergy to acid anhydrides, **390P**

Acute obstructive pulmonary disease, Oximetric saturation and end tidal CO_2 as predictors of respiratory failure in patients with acute obstructive pulmonary disease, **1074P**

Adaptation, Adaptation and acclimatisation in humans and animals at high altitude, **S9**

Adenocarcinoma
- Atypical alveolar hyperplasia and adenocarcinoma of the lung, **427P**
- Increased prevalence of adenocarcinoma of the bronchus in Yorkshire, **427P**

Adenosine 5′-monophosphate, Effect of inhaled frusemide on responses of airways to bradykinin and adenosine 5′-monophosphate in asthma, **485**

Adenotonsillectomy, Sleep disordered breathing, behaviour, and psychological functioning in children: effects of adenotonsillectomy, **413P**

Adrenaline
- Comparison of the effects of salbutamol and adrenaline on airway smooth muscle contractility in vitro and on bronchial reactivity in vivo, **1103**
- Effects of inhaled lignocaine and adrenaline on capsaicin-induced cough in humans, **1166**

Adrenocortical function, Easy bruising and adrenocortical function in patients taking inhaled corticosteroids, **404P**

Adult respiratory distress syndrome
- Adult respiratory distress syndrome: has there been a change in outcome predictive measures?, **596**
- Altered levels of soluble L-selectin adhesion receptor in plasma is correlated with development of the adult respiratory distress syndrome in at risk patient groups, **397P**
- Computed tomography appearances and lung function in survivors of ARDS, **1070P**
- Expression of circulating membrane bound receptors (CD11b/18, CD14, CD15, L-selectin) from patients at risk of the adult respiratory distress syndrome does not predict subsequent lung injury and ARDS, **406P**
- Sequelae of the adult respiratory distress syndrome: *editorial*, **8**
- Serum concentration of 7S collagen and prognosis in patients with the adult respiratory distress syndrome, **144**
- Transient iron overload with bleomycin detectable iron in the plasma of patients with adult respiratory distress syndrome, **707**

Aeroallergen sensitisation, Relation of aeroallergen sensitisation to incidence and prognosis of asthma from early childhood to age 35, **1046P**

Aerobic power, Factors influencing aerobic power in patients with ankylosing spondylitis, **1076P**

Aerosol strong acid, Effect of aerosol strong acid on lung function and symptoms in asthma patients, **1047P**

Aerosolised recombinant human DNase
- Preliminary report on using aerosolised recombinant human DNase I in the treatment of patients with stable stage cystic fibrosis for six months, **394P**
- Preliminary report on in vivo reduction of sputum visco-elasticity in cystic fibrosis patients treated with aerosolised recombinant human DNase, **394P**

Aerosols, Studies using radiolabelled aerosols in children, **1259**

Agalactosyl IgG antibody levels, Agalactosyl IgG antibody levels are elevated in patients with sarcoidosis and their spouses, **407P**

AIDS
- *Bordetella bronchiseptica* pneumonia in a patient with AIDS, **719**: *letter*, **1278**
- Cellular tropism of HIV-1 strains isolated simultaneously from peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
- Community acquired lobar pneumonia in patients with HIV infection and AIDS, **367**
- HIV-1 proviral DNA copy number in peripheral blood leucocytes and bronchoalveolar iavage cells of AIDS patients, **410P**
- Mycobacterial disease presenting as pyrexia of undetermined origin in patients with HIV infection and AIDS, **1055P**
- Pulmonary pathology in AIDS: atypical *Pneumocystis carinii* infection and lymphoid interstitial pneumonia, **S46**
- Results of chemotherapy in 30 AIDS patients with symptomatic pulmonary Kaposi's sarcoma, **958**

Air pollutants, Variations in gas volumes inspired over one hour: implications for exposure systems used in the study of the health effects of air pollutants, **399P**

Air pollution
- Air pollution and respiratory symptoms in a national sample of 23 year old subjects, **1045P**
- Effects of air pollution in wintertime on peak expiratory flow measurements in subjects with asthma or chronic bronchitis, **390P**
- Effects of summertime ambient levels of air pollution on methacholine bronchial hyperresponsiveness in subjects with asthma, **1045P**
- Health effects of an episode of nitrogen dioxide air pollution in London, December 1991, **1053P**

Airflow limitation
- Effect of increasing doses of beta agonists on spirometric parameters, exercise capacity, and quality of life in patients with chronic airflow limitation, **479**
- Influenza immunisation status and viral respiratory tract infections in patients with chronic airflow limitation, **1067P**
- Neutrophilia in induced sputum from smokers and ex-smokers is directly related to the severity of airflow limitation, **1078P**
- Quality of life in chronic airflow limitation, **417P**

Airflow (airway) obstruction
- Differences in utilisation of asthma drugs between two neighbouring Swedish provinces: relation to prevalence of obstructive airway disease, **41**
- Early lung growth and chronic airflow obstruction: *editorial*, **533**
- Effects of short term and long term treatment with inhaled corticosteroids on bone metabolism in patients with airways obstruction, **652**
- Endothelin in bronchoalveolar lavage fluid and its relationship to airflow obstruction in asthma, **1065P**
- Perception of airflow obstruction and associated breathlessness in normal and asthmatic subjects: correlation with anxiety and bronchodilator needs, **965**
- Transforming growth factor β_1 gene expression in human airways, **225**
- Upper airway obstruction due to inoperable intrathoracic goitre treated by tracheal endoprosthesis, **1034**

Airport workers, Respiratory symptoms and pulmonary function in airport workers, **401P**

Airspace, Measurement of distal airspace size: *letter*, **625**

Airway disease, Patients appear to underestimate the effect of airways disease on their health, **1045P**

Airway hyperreactivity, Dietary sodium intake and the risk of airway hyperreactivity in a random adult population, **875**
Airway hyperresponsiveness, Influence of treatment on peak expiratory flow and its relation to airway hyperresponsiveness and symptoms, **1109**
Airway inflammation, Airways inflammation in subjects with chronic bronchitis who have never smoked, **1211**
Airway malignancies, Fibreoptic bronchoscopic electrosurgery under local anaesthesia for rapid palliation in patients with central airway malignancies, **1243**
Airway responsiveness
A North of England survey of airway responsiveness: the effects of geography and gender, **1045P**
Increased airway responsiveness among shipyard workers exposed to welding fume, **400P**
Airway smooth muscle contractility, Comparison of the effects of salbutamol and adrenaline on airway smooth muscle contractility in vitro and on bronchial reactivity in vivo, **1103**
Airways questionnaires, Repeatability of two new short airways questionnaires, **1075P**
Allergic bronchopulmonary aspergillosis
Computed tomographic scanning of the lung in patients with allergic bronchopulmonary aspergillosis and in asthmatic patients with a positive skin test to *Aspergillus fumigatus*, **586**
Rise in total IgE as an indicator of allergic bronchopulmonary aspergillosis in cystic fibrosis, **1002**
Allergic sensitisation, Allergic sensitisation and position in the sibship: a national study of young British adults, **1053P**
Allergy(ies)
Asthma, allergy, and atopy in three south-east Asian populations, **1205**
Role of viral infections in the inception of asthma and allergies during childhood: could they be protective? *editorial*, **1189**
Alpha$_1$-antitrypsin deficiency, Survival of patients with severe alpha$_1$-antitrypsin deficiency with special reference to non-index cases, 695: correction, 1184
Altitude
Estimation of the pulmonary haemodynamic response to hypoxia using Doppler echocardiography in subjects travelling to extreme altitudes: results from the British 40th anniversary Everest expedition, **391P**
Respiratory function at extreme altitude: results from the British 40th anniversary Everest expedition, **431P**
The heart and lungs at extreme altitude: *editorial*, **631**
Aluminium potroom workers, Relation between exposure to fluoride and bronchial responsiveness in aluminium potroom workers with work-related asthma-like symptoms, **984**
Alveolar cells, Type I collagen formation in rat type II alveolar cells immortalised by viral gene products, **201**
Alveolar hyperplasia, Atypical alveolar hyperplasia and adenocarcinoma of the lung, **427P**
Alveolar macrophages
Alveolar macrophages from patients with fibrosing alveolitis secrete more TNF than patients with sarcoidosis and normal individuals, **408P**
Possible role of interleukin 10 in regulating the functional capacity of alveolar macrophages, **420P**
Priming effects of hypoxia on function of rat alveolar macrophages, **420P**
Progressive HIV infection is characterised by a relative reduction in alveolar macrophages with antigen presenting phenotype, **1077P**
Alveolar oxygen pressure, Correction of the single breath carbon monoxide transfer factor in exercise for variations in alveolar oxygen pressure, **82**
Alveolar particle clearance, Effect of detergent on alveolar particle clearance due to large tidal ventilation, **147**
Alveolar wall tissue, Collagen content of alveolar wall tissue in emphysematous and non-emphysematous lungs, **319**
Alveolitis, Neutrophil sequestration and activation in the pulmonary vasculature in acute alveolitis, **406P**
Ambulatory oxygen therapy, Use of ambulatory oxygen therapy with long term oxygen therapy, **1074P**
Amiloride, Effect of acetazolamide and amiloride against sodium metabisulphite-induced bronchoconstriction in mild asthma, **1096**
Aminoguanidine, Aminoguanidine selectivity inhibits inducible nitric oxide synthase, **426P**
Aminophylline, Effect of adding aminophylline infusion to nebulised salbutamol in severe acute asthma, **267**
Amitriptyline, Amitriptyline induced lung injury in rats, 427P
Amoxycillin
Concentration of amoxycillin and clavulanate in lung compartments in adults without pulmonary infection, **1134**
Penetration of amoxycillin/clavulanic acid into bronchial mucosa with different dosing regimens, **999**
Aneurysm
False aneurysm following modified Blalock-Taussig shunt, **383**
Tracheal stenosis due to bilateral arterial aneurysms, **183**
Angiosarcoma, Massive haemothorax secondary to angiosarcoma, **1036**
Angiotensin converting enzyme inhibition, Effects of angiotensin converting enzyme inhibition on sodium excretion in patients with hypoxaemic chronic obstructive pulmonary disease, **995**
Angiotensin II
Activity of the renin-angiotensin system in acute severe asthma and the effect of angiotensin II on lung function, **492**
Effect of intravenous angiotensin II on airway function in asthma, **421P**
Lisinopril attenuates the hypoxic pulmonary vasoconstrictor response: evidence for a facilitatory role of angiotensin II, **1071P**
Ankylosing spondylitis, Factors influencing aerobic power in patients with ankylosing spondylitis, **1076P**
Annual Report, Annual Report October 1993-September 1994, **1192**
Anorexigens, Dietary pulmonary hypertension, **S33**
Anterior mediastinal mass, Anterior mediastinal mass in a young man, **283**
Antibiotics
Antibiotic penetration into lung tissues: *editorial*, **104**
Effect of antibiotic therapy on lung function in cystic fibrosis patients with *Pseudomonas cepacia* colonisation compared with patients with *Pseudomonas aeruginosa* colonisation, **393P**
Effect of antibiotic treatment of inflammatory markers and lung function in cystic fibrosis patients with *Pseudomonas cepacia*, **803**
Antineutrophil cytoplasm antibodies, Clinical relevance of testing for antineutrophil cytoplasm antibodies (ANCA) with a standard indirect immunofluorescence ANCA test in patients with upper or lower respiratory tract symptoms, **213**
Antioxidant capacity, Effect of *N*-acetyl cysteine on the concentrations of thiols in plasma, bronchoalveolar lavage fluid, and lung tissue, **670**
Antitrypsin Siiyama, Antitrypsin Siiyama forms spontaneous intermolecular loop-sheet polymers like those of the Z variant, **420P**
Anxiety, Perception of airflow obstruction and associated breathlessness in normal and asthmatic subjects: correlation with anxiety and bronchodilator needs, **965**
Aorta-pulmonary shunting, Effects of chronic aorta-pulmonary shunting on pulmonary haemodynamics in growing pigs, **423P**
Aortic valvulitis, Aortic valvulitis complicating Wegener's granulomatosis, **1176**
Apnoea, Obstructive apnoeas in Duchenne muscular dystrophy, **157**
Arachidonic acid turnover, Arachidonic acid turnover in membrane lipids of atopic asthmatics: effect of nedocromil sodium, **1066P**
L-Arginine, L-Arginine selectively increases renal blood flow in normal subjects but not in patients with cor pulmonale, **392P**
Arterial blood gas tensions, Nasal ventilation in acute exacerbations of chronic obstructive pulmonary disease: effect of ventilator mode on arterial blood gas tensions, **1222**
Arteriovenous malformations, Oxygen and ^{99m}Tc-MAA shunt estimations in patients with pulmonary arteriovenous malformations, **327**
Asbestos, Asbestos on my desk: *adventitia*, **65**
Asia, Asthma, allergy, and atopy in three south-east Asian populations, **1205**
Aspergillus
Pulmonary *Mycobacterium malmoense* and aspergillus infection: a fatal combination?, **521**
Spectrum of *Aspergillus* disease following lung transplantation, **406P**
Aspergillus fumigatus
Computed tomographic scanning of the lung in patients with allergic bronchopulmonary aspergillosis and in asthmatic patients with a positive skin test to *Aspergillus fumigatus*, **586**
Sensitisation to *Aspergillus fumigatus* in adult patients with cystic fibrosis, **415P**
Asphyxia, Asphyxia while swallowing solid food caused by bronchial compression: a variant of the pneumonectomy syndrome, **382**
Aspirin desensitisation, Effects of aspirin desensitisation on urinary LTE_4 levels and FEV_1 in aspirin-sensitive asthmatic patients, **1065P**
Aspirin-induced asthma, Effect of the 5-lipoxygenase inhibitor ZD2138 on aspirin-induced asthma, **749**

Asthma
Activity of the renin-angiotensin system in acute severe asthma and the effect of angiotensin II on lung function, **492**
Acute bronchoconstriction following the use of metered dose inhalers in adult asthmatics, **402P**
Age and exercise induced bronchospasm in asthmatic children, **398P**
Airway effects of low dose salbutamol and salmeterol in patients with asthma, **1046P**
Arachidonic acid turnover in membrane lipids of atopic asthmatics: effect of nedocromil sodium, **1066P**
Assessment of asthma morbidity in the first four weeks after discharge from hospital following admission for acute severe asthma, **389P**
Asthma, allergy, and atopy in three south-east Asian populations, **1205**
Asthma and the common cold: can viruses imitate worms? *editorial*, **101**
Asthma and damp housing, **1048P**
Asthma management care plan audit in a chest clinic, **1073P**
Asthma mortality and death certification in Northern Ireland, **141**
Asthma in prawn workers: serum antibody isotopes to prawn-derived tropomyosin identified by Western blotting, **399P**
Asthma in roof bolting coal miners, **400P**
Asymptomatic bronchial hyperreactivity, asthma and other respiratory tract illness in children, **1052P**
Asymptomatic bronchial hyperreactivity and the development of asthma and other respiratory tract illnesses in children, **757**
Audit of home nebuliser use in childhood asthma, **399P**
Bronchial asthma, **1027**
Bronchial epithelial cells and eosinophils express 15-lipoxygenase in asthma, **1065P**
Bronchiolitis and asthma, are they related? *editorial*, **293**
Bronchodilator subsensitivity after chronic dosing with eformoterol in patients with asthma, **396P**
Bronchodilator use in mild to moderate asthmatics, **1072P**
Cat allergen in public places, **1071P**
Changes in the management of acute severe asthma by general and thoracic physicians in Manchester between 1985 and 1990–1, **1044P**
Chemical mutational analysis of the human glucocorticoid receptor cDNA in glucocorticoid-resistant bronchial asthma, **1051P**
Childhood asthma and gender differences in best function of adult asthmatics, **1071P**
Clinical and functional characteristics of patients two years after being affected by the soybean asthma epidemic in Barcelona, **906**
Community treatment of worsening asthma symptoms in patients requiring hospital admission, **388P**
Comparison of addition of salmeterol with increase in inhaled steroids in adult asthmatics symptomatic on 200 g twice daily (bd) inhaled steroids, **403P**
Comparison of circadian variations using FEV_1 and peak expiratory flow rates among normal and asthmatic subjects, **775**
Comparison of the effects of salmeterol and salbutamol on the endurance exercise capacity of men with mild asthma, **429P**
Comparison of exhalation techniques for use in serial measurements of lung function for the diagnosis of occupational asthma, **1057P**
Comparison of inhaled beclomethasone dipropionate 1000 g twice daily and oral prednisone 10 mg once daily in asthmatic patients, **37**
Comparison of sulphur dioxide and metabisulphite airway reactivity in subjects with asthma, **250**
Comparison of terbutaline and placebo from a pressurised metered dose inhaler and a dry powder inhaler in a subgroup of patients with asthma, **1228**
Computed tomographic scanning of the lung in patients with allergic bronchopulmonary aspergillosis and in asthmatic patients with a positive skin test to *Aspergillus fumigatus*, **586**
Consequences of a diagnosis of occupational asthma, **390P**
Continuous non-invasive monitoring of evolving acute severe asthma during sleep, **613**
Cross refractoriness between sodium metabisulphite and exercise induced asthma, **245**
Cyclosporin A as a corticosteroid sparing agent in corticosteroid dependent asthma, **1051P**
Cytokine generation by blood peripheral monocytes from patients with corticosteroid sensitive and resistant chronic bronchial asthma, **396P**
Differences in utilisation of asthma drugs between two neighbouring Swedish provinces: relation to prevalence of obstructive airway disease, **41**
Does soybean dust-induced asthma have specific immunohistochemical features? **1065P**
East Anglian confidential enquiry into asthma deaths 1992, **388P**
Effect of the 5-lipoxygenase inhibitor ZD2138 on allergen-induced early and late asthmatic responses, **743**
Effect of the 5-lipoxygenase inhibitor ZD2138 on aspirin-induced asthma, **749**
Effect of acetazolamide and amiloride against sodium metabisulphite-induced bronchoconstriction in mild asthma, **1096**
Effect of adding aminophylline infusion to nebulised salbutamol in severe acute asthma, **267**
Effect of aerosol strong acid on lung function and symptoms in asthma patients, **1047P**
Effect of an oral gold compound, auranofin, on non-specific bronchial hyperresponsiveness in mild asthma, **649**
Effect of exposure to domestic concentrations of nitrogen dioxide on the airway response to inhaled house dust mite in asthma, **1048P**
Effect of inhaled beclomethasone dipropionate on overnight urinary cortisol in prepubertal mildly asthmatic children, **398P**
Effect of inhaled frusemide on responses of airways to bradykinin and adenosine 5′-monophosphate in asthma, **485**
Effect of inhaled heparin on bronchial reactivity to sodium metabisulphite and methacholine in subjects with asthma, **1064P**
Effect of intravenous angiotensin II on airway function in asthma, **421P**
Effect of intravenous salbutamol on the activity of the renin-angiotensin system in asthma, **421P**
Effect of low dose oral theophylline on bronchial wall eosinophils after allergen challenge in atopic asthma, **1066P**
Effect of the oral neutral endopeptidase inhibitor candoxatril on bronchomotor tone and histamine reactivity in asthma, **421P**
Effect of a preprinted form on the management of acute asthma in an A&E department, **1073P**
Effects of air pollution in wintertime on peak expiratory flow measurements in subjects with asthma or chronic bronchitis, **390P**
Effects of aspirin desensitisation on urinary LTE_4 levels and FEV_1 in aspirin-sensitive asthmatic patients, **1065P**
Effects of fluticasone propionate 1 mg and 2 mg daily and budesonide 1.6 mg daily in severe asthmatics, **403P**
Effects of geography and gender on the prevalence of asthma symptoms, **387P**
Effects of summertime ambient levels of air pollution on methacholine bronchial hyperresponsiveness in subjects with asthma, **1045P**
Emotional aspects of asthma: *letter*, **625**
Endogenous nitric oxide is increased in the exhaled air of asthmatic patients, **395P**
Endothelin in bronchoalveolar lavage fluid and its relationship to airflow obstruction in asthma, **1065P**
Exhaled nitric oxide: effects of capsaicin in healthy humans and salbutamol in asthmatics, **1051P**
Flow cytometric analysis of BAL and peripheral blood T lymphocyte cytokine-generating potential in asthmatics and non-asthmatics, **1065P**
Fluticasone propionate *v* beclomethasone dipropionate in moderate to severe asthma: *letter*, **385**
Follow up of young adults after acute severe asthma: who attends? **389P**
Formoterol dry powder in asthma: *letter*, **95**
Guidelines on management of acute asthma: *letter*, **1042**
High resolution computed tomography scanning to evaluate structural changes in lungs of patients with severe chronic asthma, **430P**
High risk asthma patients: indications for emergency listing, **388P**
Histamine induced changes in breathing pattern may precede bronchoconstriction in selected patients with bronchial asthma, **639**
Hospital admissions for asthma in Zaria, Northern Nigeria, **1073P**
Impaired voluntary drive to breathe: a possible link between depression and unexplained ventilatory failure in asthmatic patients, **881**
In vivo effects of prednisolone on cellular infiltration and trafficking on the cutaneous tuberculin response in corticosteroid resistant bronchial asthma, **1051P**
Increase in asthma: a more toxic environment or a more susceptible population?, **171**
Increased atopy in brittle compared with non-brittle asthma, **401P**

Industrial injury benefit for occupational asthma in the Northern region 1991–2, **1074P**
Inhaled corticosteroid therapy in children: an assessment of the potential for side effects: *editorial*, **1185**
Inhibition of sodium metabisulphite induced bronchoconstriction by frusemide in asthma: role of cylooxygenase products, **307**
Initial peak flow less than 50% of the expected value predicts respiratory failure in asthmatic patients, **1044P**
Is asthma in pregnancy affected by the sex of the fetus? **1071P**
Late asthmatic response to inhaled glacial acetic acid, **727**
Long term outcome following an acute attack of asthma treated in the A&E department, **389P**
Non-invasive assisted ventilation in the management of respiratory failure in acute severe asthma, **413P**
Occupational asthma among hospital health care personnel: a cause for concern? *editorial*, **198**
Occupational asthma due to indirect exposure to lauryl dimethyl benzyl ammonium chloride used in a floor cleaner, **842**
Occupational asthma in workers exposed to cyanoacrylates, **400P**
Peak flow based asthma self-management, **401P**
Perception of airflow obstruction and associated breathlessness in normal and asthmatic subjects: correlation with anxiety and bronchodilator needs, **965**
Peripheral mononuclear leucocyte ß adrenoceptors and non-specific bronchial responsiveness to methacholine in young and elderly normal subjects and asthmatic patients, **26**
Placebo controlled comparison of the effect of oral bambuterol and inhaled terbutaline against exercise induced asthma, **403P**
Potentiating effect of inhaled acetaldehyde on bronchial responsiveness to methacholine in asthmatic subjects, **644**
Prevalence of asthma and probable "asthma" in Blackburn, **387P**
Prevalence of asthma and risk factors among Chinese, Malay, and Indian adults in Singapore, **347**
Prevention of further bone mass loss by nasal calcitonin in patients on long term glucocorticoid therapy for asthma, **1099**
Prospective controlled evaluation of the effect of a community based asthma education centre in a multiracial working class neighbourhood, **976**
Psychological morbidity and coping skills in patients with brittle and non-brittle asthma, **1044P**
Refinement of the computer assisted analysis of serial peak flow records in the diagnosis of occupational asthma, **1073P**
Relation of aeroallergen sensitisation to incidence and prognosis of asthma from early childhood to age 35, **1046P**
Relation between exposure to fluoride and bronchial responsiveness in aluminium potroom workers with work-related asthma-like symptoms, **984**
Response of the nose to exercise in healthy subjects and in patients with rhinitis and asthma, **128**
Risk factors for readmission to hospital for asthma in childhood, **33**
Role of inflammation in nocturnal asthma, **257**
Role of viral infections in the inception of asthma and allergies during childhood: could they be protective? *editorial*, **1189**
Salmeterol xinafoate in the treatment of mild to moderate asthma in primary care, **971**
Sauna builder's asthma cause by obeche (*Triplochiton scleroxylon*) dust, **622**
Serum interleukin 5 concentrations in atopic and non-atopic patients with glucocorticoid-dependent chronic severe asthma, **1231**
Soluble ICAM-1 release is preferentially higher in the asthmatic lung than peripheral blood, but is not altered by allergen challenge, **422P**
Successful avoidance of hospital readmission in acute asthma, **389P**
Survey of the clinical features of adult asthma in volunteers recruited from general practice between 1987 and 1990, **1073P**
Systemic effects of salbutamol and salmeterol in patients with asthma, 771, **1046P**
Temporal association between hospital admissions for asthma in Birmingham and ambient levels of sulphur dioxide and smoke, 133: *letter*, **1042**
Tolerance of bronchodilator and systemic $ß_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **1047P**
Transforming growth factor $ß_1$ gene expression in human airways, **225**
Treatment of nocturnal asthma with nedocromil sodium, **1225**
Use of inulin to compare volumes of lung fluid sampled by bronchoalveolar lavage in atopic asthmatic patients and normal subjects, **423P**
Use of peak flow meters in acute asthma by patients and doctors, **389P**
Variation in the prevalence and treatment of asthma in Norfolk, **1051P**
Ventilation in severe acute asthma: *editorial*, **297**
Ventilatory function of young adults who had asthma or wheezy bronchitis in childhood: a national birth cohort study, **1046P**
What is an asthma death? Results of a cohort study of patients discharged following inpatient treatment for asthma, **388P**
Which asthmatics keep coming to casualty and why, **1044P**
Which patients are prescribed inhaled anti-asthma drugs?, **1090**
Withdrawing chronic theophylline causes immunomodulation in the blood of asthmatic patients, **396P**
Withdrawing chronic theophylline treatment increases airway lymphocytes in asthma, **396P**

Atopy
Asthma, allergy, and atopy in three south-east Asian populations, **1205**
Effect of weal diameter on definition of atopy, **398P**
Increased atopy in brittle compared with non-brittle asthma, **401P**

Atrial natriuretic peptide
Atrial natriuretic peptide levels in the sleep apnoea/hypopnoea syndrome, **920**
Atrial natriuretic peptide modulates pulmonary haemodynamics in hypoxic COPD, **392P**
Brain natriuretic peptide is as potent a vasodilator as atrial natriuretic peptide in isolated rat pulmonary resistance vessels, **424P**
Haemodynamic effects of atrial natriuretic peptide in hypoxic chronic obstructive pulmonary disease, **233**
Inhibition of neutral endopeptidase enhances the effects of inhaled atrial natriuretic peptide, **422P**

Audit
Asthma management care plan audit in a chest clinic, **1073P**
Audit of management practices and outcome in patients with lung cancer in South East Scotland, **1061P**
Patient information and bronchoscopy: an audit of clinical practice, **404P**

Auranofin, Effect of an oral gold compound, auranofin, on non-specific bronchial hyperresponsiveness in mild asthma, **649**
Autoantigen, Localisation of a pulmonary autoantigen in cryptogenic fibrosing alveolitis, **1139**
Axillary thoracotomy, Pleural abrasion via axillary thoracotomy in the era of video assisted thoracic surgery, **922**
Azathioprine, Efficacy of azathioprine as a second line treatment in pulmonary sarcoidosis, **1069P**
Azithromycin, Intravenous azithromycin as salvage therapy in a patient with Legionnaire's disease, **620**

B
B cell lymphoma, Pancoast syndrome caused by a high grade B cell lymphoma, **92**
Bacteria
Damage to bronchial wall examined in an experimental model of bronchiectasis due to persistence of bacteria, **409P**
Passage of bacteria through piece filters designed for use in tests of forced expiration, **1068P**
Bacterial interactions, Assessment of an organ culture model incorporating an air interface for the study of bacterial interactions with human respiratory mucosa, **408P**
Bambuterol, A placebo controlled comparison of the effect of oral bambuterol and inhaled terbutaline against exercise induced asthma, **403P**
Barcelona, Clinical and functional characteristics of patients two years after being affected by the soybean asthma epidemic in Barcelona, **906**
Barn drying, Influence of barn drying of fodder on respiratory symptoms and function in dairy farmers of the Doubs region of France, **50**
Barotrauma, Pulmonary barotrauma in submarine escape training, **186**
BCG vaccination, Use of the 1 tuberculin unit (TU) Mantoux test in the assessment of tuberculous infection in children following neonatal BCG vaccination, **1006**
Beclomethasone, Relationship between changes in spirometry and changes in quality of life during a two year study of inhaled beclomethasone in COPD, **1074P**
Beclomethasone dipropionate
Comparison of budesonide and beclomethasone dipropionate on indices of bone turnover in COAD, **403P**
Comparison of inhaled beclomethasone dipropionate 1000 g twice

daily and oral prednisone 10 mg once daily in asthmatic patients, **37**
Delivery of beclomethasone dipropionate from a spacer device, **961**
Effect of inhaled beclomethasone dipropionate on overnight urinary cortisol in prepubertal mildly asthmatic children, **398P**
Fluticasone propionate *v* beclomethasone dipropionate in moderate to severe asthma:*letter*, **385**
Height velocity standard deviation scores in 162 prepubertal children receiving beclomethasone dipropionate, budesonide or sodium cromoglycate, **399P**

Behaviour
Natural history of snoring/sleep disordered breathing and behaviour problems in young children, **413P**
Sleep disordered breathing, behaviour, and psychological functioning in children: effects of adenotonsillectomy, **413P**

Behavioural therapy, Effect of cognitive and behavioural therapy on dyspnoea in the "pink puffer" syndrome, **393P**

Beta adrenergic receptors
Effects of salbutamol therapy on human ß adrenergic receptors: peripheral mononuclear leucocytes compared with lung tissue, **1046P**
Human pulmonary ß adrenergic receptors are down regulated by two weeks of ß agonist therapy, **1050P**

Beta adrenergic response cascade, Characterisation of the ß adrenergic response cascade in fetal guinea pig lung, **664**

Beta adrenoceptors, Peripheral mononuclear leucocyte ß adrenoceptors and non-specific bronchial responsiveness to methacholine in young and elderly normal subjects and asthmatic patients, **26**

Beta agonists
Effect of increasing doses of ß agonists on spirometric parameters, exercise capacity, and quality of life in patients with chronic airflow limitation, **479**
Human pulmonary ß adrenergic receptors are down regulated by two weeks of ß agonist therapy, **1050P**

Beta$_2$ adrenoceptor responses, Dose ranging study to evaluate the effects of salbutamol on exercise induced $ß_2$ adrenoceptor responses in normal subjects, **1050P**

Beta$_2$ adrenoceptors, Tolerance of bronchodilator and systemic $ß_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **1047P**

Beta$_2$ agonists
Activation of the renin-angiotensin system by nebulised $ß_2$-agonists, **395P**
Resting energy expenditure and use of chronic nebulised $ß_2$ agonists, **1076P**

Biopsy
Percutaneous biopsy or bronchoscopy for suspected peripheral lung cancer: the patient's view, **1060P**
Three year review of video assisted thoracoscopic lung biopsy, **1060P**
Value of video assisted biopsy in the management of pulmonary fibrosis, **1060P**

Biopty gun, Percutaneous intrathoracic biopsy using the Biopty gun: five year experience in a district hospital, **404P**

Birmingham, Acid air measurements in East Birmingham, **399P**

Blalock-Taussig shunt, False aneurysm following modified Blalock-Taussig shunt, **383**

Blastoma, Pulmonary blastoma in an adult presenting as a chronic loculated effusion, **838**

Bleomycin
Reversal of bleomycin lung toxicity with corticosteroids: *letter*, **290**
Transient iron overload with bleomycin detectable iron in the plasma of patients with adult respiratory distress syndrome, **707**

Blood culture, Blood culture quality in community acquired pneumonia, **1067P**

Blood flow
L-Arginine selectively increases renal blood flow in normal subjects but not in patients with cor pulmonale, **392P**
Method for assessing the dynamic nature of pulmonary blood flow reduction during lobar hypoxia in man, **391P**

Blood gas analysis, Arterialised earlobe blood gas analysis: an underused technique, **364**

Blood gas tensions
Effects of body position, hyperinflation, and blood gas tensions on maximal respiratory pressures in patients with chronic obstructive pulmonary disease, **453**
Effects of sample storage time, temperature and syringe type on blood gas tensions in samples with high oxygen partial pressures, **610**

Blood pressure, Non-invasive beat to beat arterial blood pressure during non-REM sleep in obstructive sleep apnoea and snoring, **335**

Body position, Effects of body position, hyperinflation, and blood gas tensions on maximal respiratory pressures in patients with chronic obstructive pulmonary disease, **453**

Bone marrow transplantation, Pulmonary infiltrates following bone marrow transplantation: *letters*, **624**, **1042**

Bone mass, Prevention of further bone mass loss by nasal calcitonin in patients on long term glucocorticoid therapy for asthma, **1099**

Bone metabolism, Effects of short term and long term treatment with inhaled corticosteroids on bone metabolism in patients with airways obstruction, **652**

Bradykinin, Effect of inhaled frusemide on responses of airways to bradykinin and adenosine 5′-monophosphate in asthma, **485**

Brain natriuretic peptide, Brain natriuretic peptide is as potent a vasodilator as atrial natriuretic peptide in isolated rat pulmonary resistance vessels, **424P**

Brasfield score, The chest radiograph in cystic fibrosis: a new scoring system compared with the Chrispin-Norman and Brasfield scores, **860**: correction, **1184**

Brazil, Prevalence and risk factors for chronic bronchitis in Pelotas, RS, Brazil: a population-based study, **1217**

Breathing
Breathing pattern and central ventilatory drive in mild and moderate generalised myasthenia gravis, **703**

Carotid bodies and breathing in humans: *editorial*, **1081**
Impaired voluntary drive to breathe: a possible link between depression and unexplained ventilatory failure in asthmatic patients, **881**
Breathing problems questionnaire, Validation of the breathing problems questionnaire by physiological measures, **417P**
Breathlessness
Breathless on Everest: *adventitia*, **249**, **269**
Effect of inspiratory pressure support on exercise tolerance and breathlessness in patients with severe stable chronic obstructive pulmonary disease, **990**
Perception of airflow obstruction and associated breathlessness in normal and asthmatic subjects: correlation with anxiety and bronchodilator needs, **965**
British Thoracic Society
Validation of BTS guidelines for diagnosis of sleep apnoea hypopnoea syndrome, **1062P**
Winter meeting, December 1993, London, abstracts, **387P**
Bronchial carcinoid tumours, Histopathology and prognostic factors in bronchial carcinoid tumours, **S56**
Bronchial carcinoma
Atypical alveolar hyperplasia and adenocarcinoma of the lung, **427P**
Carcinoma of the bronchus in Yorkshire 1976 to 1990: trends since 1984, **427P**
Increased prevalence of adenocarcinoma of the bronchus in Yorkshire, **427P**
Bronchial compression, Asphyxia while swallowing solid food caused by bronchial compression: a variant of the pneumonectomy syndrome, **382**
Bronchial diverticulosis, Endobronchial valves: *letter*, **528**
Bronchial epithelial cells
Bronchial epithelial cells and eosinophils express 15-lipoxygenase in asthma, **1065P**
Transforming growth factor ß in normal human lung: preferential location in bronchial epithelial cells, **789**
Bronchial hyperreactivity
Asymptomatic bronchial hyperreactivity, asthma and other respiratory tract illness in children, **1052P**
Asymptomatic bronchial hyperreactivity and the development of asthma and other respiratory tract illnesses in children, **757**
Dietary magnesium intake, lung function, wheezing, and airway hyperreactivity in a random adult population sample, **1053P**
Evaluation of asymptomatic subjects with low forced expiratory ratios (FEV_1/VC), **554**
Influence of serious childhood infection on prevalence of bronchial hyperreactivity in Ireland (European Commission Respiratory Health Survey), **1052P**
Bronchial mucosa, Penetration of amoxycillin/clavulanic acid into bronchial mucosa with different dosing regimens, **999**
Bronchial obstruction, Bronchial obstruction due to respiratory mucosal sloughing in toxic epidermal necrolysis, **935**
Bronchial responsiveness
Determinants of bronchial responsiveness in an occupational cohort study, **390P**
Relation between exposure to fluoride and bronchial responsiveness in aluminium potroom workers with work-related asthma-like symptoms, **984**
Relation of serum IgE, eosinophils, smoking, and bronchial responsiveness to FEV_1/FVC in a middle aged and elderly population, **416P**
Bronchiectasis
Damage to bronchial wall examined in an experimental model of bronchiectasis due to persistence of bacteria, **409P**
Effects of indomethacin on peripheral neutrophil function and lung secretions in bronchiectasis, **420P**
Heart/lung or double lung transplant for cystic fibrosis/bronchiectasis? **1050P**
Localised pulmonary resection for bronchiectasis in hypogammaglobulinaemic patients, **509**
Lung function in bronchiectasis: the influence of chronic colonisation with *Pseudomonas aeruginosa*, **432P**
Surgical resection for bronchiectasis: functional and computed tomographic follow up, **405P**
Variability in ciliary beat frequency in bronchiectasis: *letter*, **290**
Bronchiolar epithelial cells, Relation of smoking to immunoreactive endothelin in the bronchiolar epithelial cells, **786**
Bronchiolitis
Bronchiolitis and asthma, are they related? *editorial*, **293**
Oxygen therapy and maturational differences in infants with bronchiolitis, **416P**
Bronchiolitis obliterans syndrome, Bronchiolitis obliterans syndrome after heart/lung transplantation, **406P**
Bronchitis
Chronic bronchitis in textile workers in Lancashire, **1054P**
Effects of air pollution in wintertime on peak expiratory flow measurements in subjects with asthma or chronic bronchitis, **390P**
Bronchoalveolar lavage
Activation of peripheral blood mononuclear cells in bronchoalveolar lavage fluid from patients with sarcoidosis, **1146**
Bronchoalveolar lavage and pulmonary capillary permeability after cardiopulmonary bypass, **406P**
Cellular tropism of HIV-1 strains isolated simultaneously from peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
Comparison of extracellular epithelial lung surface proteins in paired lavages from the same subjects, **1077P**
Does analysis of bronchoalveolar lavage fluid provide a tool to monitor disease progression or to predict survival in patients with HIV-1 infection? *editorial*, **848**
Endothelin in bronchoalveolar lavage fluid and its relationship to airflow obstruction in asthma, **1065P**
Flow cytometric analysis of BAL and peripheral blood T lymphocyte cytokine-generating potential in asthmatics and non-asthmatics, **1065P**
HIV-1 proviral DNA copy number in peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
Pneumococcal antigen detection in bronchoalveolar lavage fluid from patients with pneumonia, **872**
Use of inulin to compare volumes of lung fluid sampled by bronchoalveolar lavage in atopic asthmatic patients and normal subjects, **423P**
Bronchoconstriction
Acute bronchoconstriction following the use of metered dose inhalers in adult asthmatics, **402P**
Histamine induced changes in breathing pattern may precede bronchoconstriction in selected patients with bronchial asthma, **639**
Bronchoconstrictive response, Within subject reproducibility of the bronchoconstrictive response to exercise when heat loss is kept constant, **429P**
Bronchodilators
Bronchodilator subsensitivity after chronic dosing with eformoterol in patients with asthma, **396P**
Bronchodilator use in mild to moderate asthmatics, **1072P**
Bronchodilators and bronchial hyperresponsiveness: *letters*, 190, **1181**
Bronchogenic cyst, Intralobar pulmonary sequestration and mediastinal bronchogenic cyst, **615**
Bronchopulmonary dysplasia, Predicting the severity of airways disease from arterial alveolar oxygen difference in children with bronchopulmonary dysplasia, **415P**
Bronchoscopy
An audit of UK bronchoscopy procedures: patient safety, **1060P**
An audit of UK bronchoscopy procedures: staff safety, **1060P**
Guidelines for care during bronchoscopy: *letter*, **528**
Outcome of bronchoscopy for suspected lung cancer in a university general hospital, **1060P**
Patient information and bronchoscopy: an audit of clinical practice, **404P**
Percutaneous biopsy or bronchoscopy for suspected peripheral lung cancer: the patient's view, **1060P**
Use of bronchoscopy in the diagnosis of infection in the immunocompromised host: *editorial*, **3**
Bronchospasm, Age and exercise induced bronchospasm in asthmatic children, **398P**
Bronchus, Removal of a dental post from the bronchus by interventional cardiovascular techniques, **526**
Brucellosis, Pleural fluid characteristics in pulmonary brucellosis, **89**
Bruising, Easy bruising and adrenocortical function in patients taking inhaled corticosteroids, **404P**
Budesonide
Comparative systemic bioactivity of inhaled budesonide and fluticasone propionate in healthy subjects, **1047P**
Comparison of budesonide and beclomethasone dipropionate on indices of bone turnover in COAD, **403P**
Effect of the addition of terbutaline therapy on the airway response to inhaled budesonide, **1047P**
Effects of fluticasone propionate 1 mg and 2 mg daily and budesonide 1.6 mg daily in severe asthmatics, **403P**

Equipotency of budesonide and fluticasone propionate in the vasoconstriction assay, **422P**
Gastrointestinal absorption of inhaled budesonide in healthy adults: is it significant? **1072P**
Height velocity standard deviation scores in 162 prepubertal children receiving beclomethasone dipropionate, budesonide or sodium cromoglycate, **399P**
Bumetanide, Effect of loop diuretics on cholinergic neurotransmission in human airways in vitro, **657**
Burkholderia (Pseudomonas) cepacia, Airborne dissemination of *Burkholderia (Pseudomonas) cepacia* from adult patients with cystic fibrosis, **1157**

C
[^{14}C]-pentamidine, Absorption, accumulation, and metabolism of [^{14}C]-pentamidine in the isolated perfused rabbit lung, **410P**
C-type natriuretic peptide, C-type natriuretic peptide levels in cor pulmonale and in congestive heart failure, **1247**
Cadaver, Experimental evaluation of the strength of stapled bronchial closure in human cadavers versus sutured closure, **1061P**
Calcitonin, Prevention of further bone mass loss by nasal calcitonin in patients on long term glucocorticoid therapy for asthma, **1099**
Candidiasis, Toothbrushes act as a potential source of oral candidiasis in patients on inhaled steroids, **1072P**
Candoxatril, Effect of the oral neutral endopeptidase inhibitor candoxatril on bronchomotor tone and histamine reactivity in asthma, **421P**
Capillary blood gas analysis, Effect of a time delay on capillary blood gas analysis, **1058P**
Capsaicin
Effects of inhaled lignocaine and adrenaline on capsaicin-induced cough in humans, **1166**
Exhaled nitric oxide: effects of capsaicin in healthy humans and salbutamol in asthmatics, **1051P**
Capsaicin cough test, Capsaicin cough test: relation to disease and reported cough, **1069P**
Captopril, Sleep quality in chronic heart failure: effects of oxygen and captopril, **1063P**
Carbon dioxide rebreathing, Respiratory effort perception at rest and during carbon dioxide rebreathing in patients with dystrophia myotonica, **240**: *letter* **1181**
Carbon monoxide, Measurement of transfer factor during constant exhalation, **1121**
Carbon monoxide transfer factor, Correction of the single breath carbon monoxide transfer factor in exercise for variations in alveolar oxygen pressure, **82**
Carcinoid tumours
Carcinoid tumours of the thymus, **357**
Histopathology and prognostic factors in bronchial carcinoid tumours, **S56**
Mediastinal paraganglioma presenting as an intracardiac mass with SVC obstruction: *letter*, **625**
Cardiac disease, Gas exchange abnormalities in pulmonary vascular and cardiac disease, **1169**
Cardiopulmonary bypass
Bronchoalveolar lavage and ulmonary capillary permeability after cardiopulmonary bypass, **406P**
D(V-P$_{CO_2}$) reflects both peripheral metabolism and changes in pulmonary ventilation in the pig hind limb under cardiopulmonary bypass, **430P**
Carotid bodies
Carotid bodies in animal models of human disease: what do they teach us? **S14**
Carotid bodies and breathing in humans: *editorial*, **1081**
Cat allergen, Cat allergen in public places, **1071P**
Cathepsin G mRNA, Neutrophil elastase and cathepsin G mRNA and protein in Chediak-Higashi bone marrow, **420P**
Catheters
Correlation of echocardiography and right heart catheter in systemic sclerosis, **431P**
Spontaneous migration of totally implanted venous catheter systems from subclavian into jugular veins, **281**
Caves, Pulmonary physiology in St Swithin's Hole: *adventitia* **114**
CD11b/18, C14, CD15, Expression of circulating membrane bound receptors (CD11b/18, CD14, CD15, L-selectin) from patients at risk of the adult respiratory distress syndrome does not predict subsequent lung injury and ARDS, **406P**
CD45RO$^+$ T cells, Lymphocyte chemokine RANTES is expressed in patients with fibrosing lung disease and also in normal lung, **408P**
Cell counts, Differential cell counts are more reproducible than total cell counts in induced sputum from patients with chronic obstructive pulmonary disease, **416P**
Central ventilatory drive, Breathing pattern and central ventilatory drive in mild and moderate generalised myasthenia gravis, **703**
Cerebral infarction, Massive cerebral infarction after completion pneumonectomy for pulmonary torsion, **1274**
Chaos: *adventitia*, **713**
Chediak-Higashi bone marrow, Neutrophil elastase and cathepsin G mRNA and protein in Chediak-Higashi bone marrow, **420P**
Chemiluminescent method, Use of a chemiluminescent method to study the chemical reaction of nitric oxide with biologically important molecules under physiological conditions, **425P**
Chemotherapy, Results of chemotherapy in 30 AIDS patients with symptomatic pulmonary Kaposi's sarcoma, **958**
Chest clinic, Asthma management care plan audit in a chest clinic, **1073P**
Chest radiograph
Critical evaluation of three chest radiograph scores in cystic fibrosis, **863**
The chest radiograph in cystic fibrosis: a new scoring system compared with the Chrispin-Norman and Brasfield scores, **860**: correction, **1184**
Chest radiology, Chest radiology in cystic fibrosis: is scoring useful? *editorial* **847**
Chest wall sarcoma, Eosinophilic endomyocardial disease due to high grade chest wall sarcoma, **1040**
Children
Childhood tuberculosis in Leeds, 1982–90: social and ethnic factors and the role of the contact clinic in diagnosis, **184**
Influence of serious childhood infection on prevalence of bronchial hyperreactivity in Ireland (European Commission Respiratory Health Survey), **1052P**
Inhaled corticosteroid therapy in children: an assessment of the potential for side effects: *editorial*, **1185**
Natural history of snoring/sleep disordered breathing and behaviour problems in young children, **413P**
Paediatric lung transplantation: the agony and the ecstasy: *editorial*, **437**
Passive smoking and the health of children: *editorial*, **731**
Sleep disordered breathing, behaviour, and psychological functioning in children: effects of adenotonsillectomy, **413P**
Chlamydia pneumoniae, Community acquired pneumonia is commonly caused by *Chlamydia pneumoniae* in underdeveloped communities, **1067P**
Chloride
Assessment of chloride secretion across human nasal epithelium using ^{125}I efflux, **414P**
Chloride impermeability in the airways of males with congenital bilateral absence of the vas deferens, **394P**
Cholinergic neurotransmission, Effect of loop diuretics on cholinergic neurotransmission in human airways in vitro, **657**
Choriocarcinoma syndrome, Contralateral haemorrhagic pulmonary metastases ("choriocarcinoma syndrome") after pneumonectomy for primary pulmonary choriocarcinoma, **523**
Chrispin-Norman score, The chest radiograph in cystic fibrosis: a new scoring system compared with the Chrispin-Norman and Brasfield scores, **860:** correction, **1184**
Chronic bronchitis
Airways inflammation in subjects with chronic bronchitis who have never smoked, **1211**
Prevalence and risk factors for chronic bronchitis in Pelotas, RS, Brazil: a population-based study, **1217**
Chronic obstructive pulmonary (airways, lung) disease
Atrial natriuretic peptide modulates pulmonary haemodynamics in hypoxic COPD, **392P**
Bronchial responsiveness and acute bronchodilator response in chronic obstructive pulmonary disease and diffuse panbronchiolitis, **540**
Chronic obstructive airways disease: terminology: *letter*, 528
Chronic pulmonary diseases: chronic obstructive pulmonary disease and idiopathic pulmonary fibrosis, **924**
Comparison between nebulisers and spacers for home bronchodilator treatment in COPD, **392P**
Comparison of budesonide and beclomethasone dipropionate on indices of bone turnover in COAD, **403P**
Comparison of face and nasal masks for non-invasive ventilation in COPD patients, **1063P**
Comparison of prednisolone and mianserin on ventilatory exercise and psychometric variables in COPD, **418P**
Corticosteroid trial reproducibility in COPD, **392P**

Development of grading scheme for quality control of spirometry in patients with COPD, **1057P**
Difference between basal release of nitric oxide and response to acetylcholine in isolated lungs from patients with chronic obstructive lung disease, **425P**
Differential cell counts are more reproducible than total cell counts in induced sputum from patients with chronic obstructive pulmonary disease, **416P**
Early lung growth and chronic airflow obstruction: *editorial*, **533**
Effect of correction of hypoxia on proteinuria in chronic obstructive lung disease, **417P**
Effect of inspiratory pressure support on exercise tolerance and breathlessness in patients with severe stable chronic obstructive pulmonary disease, **990**
Effect of lung transplantation on diaphragmatic function in patients with chronic obstructive pulmonary disease, **459**
Effect of nebulised morphine and morphine 6-glucuronide on exercise endurance in patients with chronic obstructive pulmonary disease, **393P**
Effect of theophylline on exercise performance in patients with severe chronic obstructive pulmonary disease, **332:** *letter*, **1182**
Effect of withdrawal of inhaled steroids in patients with chronic obstructive pulmonary disease, **392P**
Effects of angiotensin converting enzyme inhibition on sodium excretion in patients with hypoxaemic chronic obstructive pulmonary disease, **995**
Effects of body position, hyperinflation, and blood gas tensions on maximal respiratory pressures in patients with chronic obstructive pulmonary disease, **453**
Effects of nedocromil sodium in the treatment of non allergic subjects with chronic obstructive pulmonary disease, **1022**
Endothelin in bronchoalveolar lavage fluid and its relationship to airflow obstruction in asthma, **1065P**
Evidence for changing risk factors for chronic obstructive lung disease during the last 150 years, **416P**
Haemodynamic effects of atrial natriuretic peptide in hypoxic chronic obstructive pulmonary disease, **233**
Health-related quality of life among patients with chronic obstructive pulmonary disease, **162**
Inhaled steroids in obstructive lung disease in Europe: the ISOLDE trial, protocol and progress, **417P**
LTOT in COPD: *letter*, **529**
Nasal ventilation in acute exacerbations of chronic obstructive pulmonary disease: effect of ventilator mode on arterial blood gas tensions, **1222**
Nocturnal nasal positive pressure ventilation with supplemental oxygen therapy compared with oxygen therapy alone in stable hypercapnic COPD, **1049P**
Nocturnal oxygen desaturation and exercise desaturation in subjects with chronic obstructive pulmonary disease, **1063P**
Perception of airflow obstruction and associated breathlessness in normal and asthmatic subjects: correlation with anxiety and bronchodilator needs, **965**
Quality of life in patients with COPD and severe hypoxaemia, **1074P**
Randomised controlled study of nasal pressure support ventilation compared with oxygen therapy in stable hypercapnic chronic obstructive pulmonary disease, **413P**
Relation of lung function, maximal inspiratory pressure, dyspnoea, and quality of life with exercise capacity in patients with chronic obstructive pulmonary disease, **468**
Relationship between changes in spirometry and changes in quality of life during a two year study of inhaled beclomethasone in COPD, **1074P**
Respiratory symptoms and functional status of 20–45 year olds attending general practice, **418P**
Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**
Validation of the breathing problems questionnaire by physiological measures, **417P**

Chronic respiratory questionnaire, Reliability and validity of the chronic respiratory questionnaire (CRQ), **465:** *letter*, **1277**

Chylothorax, Thoracoscopic treatment of postoperative chylothorax after coronary bypass surgery, **1273**

Cigarette smoke, Effects of cigarette smoke on epithelial cells of the respiratory tract, **825**

Cigarette smokers, Lung structure and function in cigarette smokers, **473:** *letter*, **1276**

Ciliary beat frequency, Variability in ciliary beat frequency in bronchiectasis: *letter*, **290**

Ciliary disorientation, Ciliary disorientation in patients with chronic upper respiratory tract inflammation, **409P**

Circadian variations, Comparison of circadian variations using FEV_1 and peak expiratory flow rates among normal asthmatic subjects, **775**

Circulating antibodies
Circulating antibodies to lung antigens(s) in patients with cryptogenic fibrosing alveolitis, **408P**
Circulating antibodies to lung protein(s) in patients with cryptogenic fibrosing alveolitis, **218**

Circulating immune complexes, Specification and quantitation of circulating immune complexes in the serum of patients with active pulmonary sarcoidosis, **688**

Citric acid, Effect of inhaled menthol on citric acid induced cough in normal subjects, **1024**

Clavulanate, Concentration of amoxycillin and clavulanate in lung compartments in adults without pulmonary infection, **1134**

Clavulanic acid, Penetration of amoxycillin/clavulanic acid into bronchial mucosa with different dosing regimens, **999**

Clinical research: *adventitia*, **713**

Clonal analysis, Clonal analysis of lung and blood T cells in patients with sarcoidosis, **577**

Co-amoxiclav, Penetration of co-amoxiclav into lung tissues, **1067P**

Coal miners, Asthma in roof bolting coal miners, **400P**

Cocaine abuse, Delayed resolution of pulmonary oedema after cocaine/heroin abuse, **1038**

Cognitive therapy, Effect of cognitive and behavioural therapy on dyspnoea in the "pink puffer" syndrome, **393P**

Collagen
Collagen content of alveolar wall tissue in emphysematous and non-emphysematous lungs, **319**
Serum concentration of 7S collagen and prognosis in patients with the adult respiratory distress syndrome, **144**
Type I collagen formation in rat type II alveolar cells immortalised by viral gene products, **201**

Collagen breakdown products, Collagen breakdown products and lung collagen metabolism: an in vitro study on fibroblast cultures, **312**

Combined preparation chemotherapy, Mycobacterial drug resistance and the use of combined preparation chemotherapy in North America and the United Kingdon, **434P**

Common cold
Asthma and the common cold: can viruses imitate worms? *editorial*, **101**
Microvascular exudative hyperresponsiveness in human coronavirus-induced common cold, **121**

Community acquired lobar pneumonia, Community acquired lobar pneumonia in patients with HIV infection and AIDS, **367**

Community acquired pneumonia
Blood culture quality in community acquired pneumonia, **1067P**
Community acquired pneumonia is commonly caused by *Chlamydia pneumoniae* in underdeveloped communities, **1067P**
Functional status and microbiology in community acquired pneumonia in the elderly, **1067P**

Compliance, Treatment compliance in adults with cystic fibrosis, **115**

Computed tomography
Accuracy of CT appearances of fibrosing alveolitis: *letter*, **385**
Preoperative computed tomographic scanning for staging lung cancer: *editorial*, **941**
Preoperative staging of carcinoma of the bronchus: can computed tomographic scanning reliably identify stage III tumours?, **951**

Computer assisted analysis, Refinement of the computer assisted analysis of serial peak flow records in the diagnosis of occupational asthma, **1073P**

Computerised polysomnography, Computerised polysomnography: *letter*, **528**

Congestive heart failure, C-type natriuretic peptide levels in cor pulmonale and in congestive heart failure, **1247**

Continuous positive airway pressure
Comparison of nine nasal CPAP systems, **412P**
Compliance with CPAP therapy in patients with the sleep apnoea/hypopnoea syndrome, **263**
Daytime vigilance in patients with obstructive sleep apnoea before and after CPAP treatment, **412P**
Effects of CPAP on daytime function in the sleep apnoea/hypopnoea syndrome, **412P**
Prediction of nasal continuous positive applied pressure (CPAP) in the treatment of obstructive sleep apnoea, **412P**

Coping skills, Psychological morbidity and coping skills in patients with brittle and non-brittle asthma, **1044P**

Cor pulmonale
C-type natriuretic peptide levels in cor pulmonale and in congestive heart failure, **1247**
L-Arginine selectively increases renal blood flow in normal subjects but not in patients with cor pulmonale, **392P**
Coronary bypass surgery, Thoracoscopic treatment of post-operative chylothorax after coronary bypass surgery, **1273**
Coronavirus, Microvascular exudative hyperresponsiveness in human coronavirus-induced common cold, **121**
Corrections, **96**, **386**, **1184**
Corticosteroids
Corticosteroid trial reproducibility in COPD, **392P**
Cyclosporin A as a corticosteroid sparing agent in corticosteroid dependent asthma, **1051P**
Cytokine generation by blood peripheral monocytes from patients with corticosteroid sensitive and resistant chronic bronchial asthma, **396P**
Easy bruising and adrenocortical function in patients taking inhaled corticosteroids, **404P**
Effects of short term and long term treatment with inhaled corticosteroids on bone metabolism in patients with airways obstruction, **652**
Inhaled corticosteroid therapy in children: an assessment of the potential for side effects: *editorial*, **1185**
Reversal of bleomycin lung toxicity with corticosteroids: *letter*, **290**
Serum interleukin 5 concentrations in atopic and non-atopic patients with glucocorticoid-dependent chronic severe asthma, **1231**
Cortisol, Effect of inhaled beclomethasone dipropionate on overnight urinary cortisol in prepubertal mildly asthmatic children, **398P**
Cost-effectiveness, Respiratory rehabilitation, complementary and cost-effective, **1075P**
Cough
Capsaicin cough test: relation to disease and reported cough, **1069P**
Effect of inhaled menthol on citric acid induced cough in normal subjects, **1024**
Effects of inhaled lignocaine and adrenaline on capsaicin-induced cough in humans, **1166**
Regional lung clearance during cough and forced expiration technique (FET), **557**
Crofton Cup, The Crofton Cup: *adventitia*, **553**
Cryptogenic fibrosing alveolitis
BTS study of cryptogenic fibrosing alveolitis: clinical features at presentation, **394P**
BTS study of cryptogenic fibrosing alveolitis: investigations, lung function and treatment at presentation, **395P**
Circulating antibodies to lung antigen(s) in patients with cryptogenic fibrosing alveolitis, **408P**
Circulating antibodies to lung protein(s) in patients with cryptogenic fibrosing alveolitis, **218**
Comparison of reported mortality rates from cryptogenic fibrosing alveolitis in five countries, **1069P**
Functional impairment in fibrosing alveolitis after matching for CT findings, demographic factors and smoking: a comparison between cryptogenic fibrosing alveolitis and the fibrosing alveolitis of systemic sclerosis, **395P**
Localisation of a pulmonary autoantigen in cryptogenic fibrosing alveolitis, **1139**
Plasma vitamin E levels in patients with cryptogenic fibrosing alveolitis, **1078P**
Preflight assessment of patients with cryptogenic fibrosing alveolitis, **1069P**
Pulmonary function tests and thin section computed tomography in lone cryptogenic fibrosing alveolitis: a functional morphological correlation, **395P**
Tissue location and distribution of a pulmonary autoantigen in patients with cryptogenic fibrosing alveolitis, **408P**
Customer satisfaction, How to keep the customer satisfied, **279**
Cutis laxa, Congenital cutis laxa with a dominant inheritance and early onset emphysema, **836**
Cyanoacrylates, Occupational asthma in workers exposed to cyanoacrylates, **400P**
Cyclic AMP, Effect of salmeterol on cyclic AMP mediated slowing of human ciliary beat in vitro by the *Pseudomonas aeruginosa* toxin pyocyanin, **409P**
Cyclooxygenase products, Inhibition of sodium metabisulphite induced bronchoconstriction by frusemide in asthma: role of cyclooxygenase products, **307**
Cyclophosphamide, Feasibility of using glycosylated recombinant human granulocyte colony stimulating factor to increase the dose intensity of doxorubicin, cyclophosphamide and etoposide in small cell lung cancer, **428P**
Cyclosporin A, Cyclosporin A as a corticosteroid sparing agent in corticosteroid dependent asthma, **1051P**
Cystic adenomatoid malformation, Intralobar bronchopulmonary sequestration: antenatal diagnosis, **379**
Cystic fibrosis
Airborne dissemination of *Burkholderia (Pseudomonas) cepacia* from adult patients with cystic fibrosis, **1157**
Assessment of hyperinflation in children with cystic fibrosis, **1164**
Care of intravenous lines in cystic fibrosis: an audit of practice within the British Isles, **1068P**
Chest radiology in cystic fibrosis: is scoring useful? *editorial*, **847**
Colonisation of lung allografts with *Pseudomonas aeruginosa* in heart-lung transplant recipients with cystic fibrosis, **721**
Consumer, carer, provider, purchaser – developing care for adults with cystic fibrosis: *editorial*, **291**
Correction of the ion transport defect in the airways of the insertional cystic fibrosis mouse model by liposome mediated gene therapy, **394P**
Critical evaluation of three chest radiograph scores in cystic fibrosis, **863**
Cystic fibrosis patients survival and resource use: a comparative study of heart and lung transplantation and conventional treatment, **1050P**
Desensitisation of neutrophil responses by systemic interleukin 8 in cystic fibrosis, **867**
Diffuse panbronchiolitis and cystic fibrosis: East meets West: *editorial*, **531**
Do the medical requirements differ for adult cystic fibrosis patients infected with *Pseudomonas cepacia*? **1049P**
Early focal *x* ray film changes and later morbidity and mortality in cystic fibrosis, **415P**
Effect of antibiotic therapy on lung function in cystic fibrosis patients with *Pseudomonas cepacia* colonisation compared with patients with *Pseudomonas aeruginosa* colonisation, **393P**
Effect of antibiotic treatment of inflammatory markers and lung function in cystic fibrosis patients with *Pseudomonas cepacia*, **803**
Effect of exercise on the nasal transmucosal potential difference in patients with cystic fibrosis and normal subjects, **1249**
Effect of ouabain and salbutamol on transepithelial nasal potentials in patients with cystic fibrosis and healthy controls, **1076P**
Eosinophilic activation in cystic fibrosis, **496**
Exercise testing and prognosis in adult cystic fibrosis, **1075P**
Fluoroscopically guided percutaneous gastrostomy in patients with cystic fibrosis, **519**
Gene therapy for cystic fibrosis: safety of the cationic liposome, **408P**
Heart/lung or double lung transplant for cystic fibrosis/bronchiectasis? **1050P**
Hospital care for adults with cystic fibrosis: an overview and comparison, **300**
In vivo and in vitro electrophysiological characteristics of the airways of the insertional mutant mouse model of cystic fibrosis, **414P**
Passage of bacteria through piece filters designed for use in tests of forced expiration, **1068P**
Plasma immunoreactive interleukin 8 in cystic fibrosis, **415P**
Preliminary report on using aerosolised recombinant human DNase I in the treatment of patients with stable stage cystic fibrosis for six months, **394P**
Preliminary report on in vivo reduction of sputum visco-elasticity in cystic fibrosis patients treated with aerosolised recombinant human DNase, **394P**
Preterminal disease and dying in adult cystic fibrosis, **393P**
Prevalence of the delta F508 mutation in cystic fibrosis in the West Midlands, **414P**
Pseudomonas cepacia in cystic fibrosis: *editorial*, **629**
Psychosocial functioning of young adults with cystic fibrosis and their families, **798**
Referral for lung transplantation: experience of an adult cystic fibrosis centre, **405P**
Rise in total IgE as an indicator of allergic bronchopulmonary aspergillosis in cystic fibrosis, **1002**
Role of free radicals in the pathogenesis of cystic fibrosis: *editorial*, *738*
Sensitisation to *Aspergillus fumigatus* in adult patients with cystic fibrosis, **415P**
Serum IgG response to an 80 kDa outer membrane protein of *Pseudomonas cepacia* in patients with cystic fibrosis, **414P**
Survival after transplantation of cystic fibrosis patients infected with *Pseudomonas cepacia*, **1050P**

The chest radiograph in cystic fibrosis: a new scoring system compared with the Chrispin-Norman and Brasfield scores, **860**: correction, **1184**
Treatment compliance in adults with cystic fibrosis, **115**
Use of a Heimlich flutter valve for pneumothorax in cystic fibrosis, **1178**
Cytokines
Cytokine generation by blood peripheral monocytes from patients with corticosteroid sensitive and resistant chronic bronchial asthma, **396P**
Flow cytometric analysis of BAL and peripheral blood T lymphocyte cytokine-generating potential in asthmatics and non-asthmatics, **1065P**
Interleukin 5 and interleukin 8 gene expression: key cytokines in fibrosing alveolitis, **397P**
Phagocyte function and cytokine production in community acquired pneumonia, **107**
Cytomegalovirus, Cytomegalovirus carriage in the lung after pulmonary transplantation, **405P**

D
Damp housing, Asthma and damp housing, **1048P**
Daytime sleepiness, Which polysomnographic variables best reflect daytime sleepiness? **1062P**
Death certification, Asthma mortality and death certification in Northern Ireland, **141**
Dehumidifiers, Effect of dehumidifiers on mite counts and house dust mite allergen *Der p* I, **1072P**
delta F508 mutation, Prevalence of the delta F508 mutation in cystic fibrosis in the West Midlands, **414P**
Dental post retrieval, Removal of a dental post from the bronchus by interventional cardiovascular techniques, **526**
Desquamative interstitial pneumonitis, Fibrosing alveolitis and desquamative interstitial pneumonitis, **415P**
Detergent, Effect of detergent on alveolar particle clearance due to large tidal ventilation, **147**
Dexamethasone, Monocyte interleukin-8 responses to lipopolysaccharide stimulation and dexamethasone inhibition: a single cell analysis, **421P**
Diaphragm
Bilateral magnetic stimulation of the phrenic nerves using an anterior approach, **1058P**
Diaphragmatic movement in hemiplegic patients measured by ultrasonography, **890**
Dynamic changes in the zone of apposition and diaphragm length during maximal respiratory efforts, **634**
Effect of lung transplantation on diaphragmatic function in patients with chronic obstructive pulmonary disease, **459**
Excursion-volume relation of the right hemidiaphragm measured by ultrasonography and respiratory airflow measurements, **885**
Fetal lung compliance in premature and term lambs after two methods of in utero repair of diaphragmatic hernia, **1015**
Maximum relaxation rate of the diaphragm during weaning from mechanical ventilation, **54**
Potentiation of diaphragmatic twitch after voluntary contraction in normal subjects, **1234**
Transient right-to-left shunting through a patent foramen ovale secondary to unilateral diaphragmatic paralysis, **933**
Unilateral magnetic phrenic nerve stimulation in unilateral diaphragm paresis, **1058P**
Diastolic filling, Altered diastolic filling in obstructive sleep apnoea, **1048P**
Diet, Dietary pulmonary hypertension, **S33**
Diffuse ground glass pattern, Pulmonary sarcoidosis with a diffuse ground glass pattern on the chest radiograph, **793**
Diffuse patchy lung infiltrates, Respiratory failure with diffuse patchy lung infiltrates: an unusual presentation of squamous cell carcinoma, **1271**
Dirofilariasis, Non-specific fluourescent whitener stains in the rapid recognition of pulmonary dirofilariasis, **590**
Diving training, Pulmonary barotrauma in submarine escape training, **186**
DNA analysis, Value of DNA analysis in addition to cytological testing in the diagnosis of malignant pleural effusions, **692**
DNA flow cytometry, Comparison of nucleolar organiser regions and DNA flow cytometry in the evaluation of pleural effusion, **1152**
Doxorubicin, Feasibility of using glycosylated recombinant human granulocyte colony stimulating factor to increase the dose intensity of doxorubicin, cyclophosphamide and etoposide in small cell lung cancer, **428P**
Drug delivery, Assessment of third world drug delivery via a jet nebuliser foot pump, **1059P**
Drug reactions, Analysis of the frequency of drug reactions to antituberculosis drugs, **433P**
Drug resistance, Mycobacterial drug resistance and the use of combined preparation chemotherapy in North America and the United Kingdom, **434P**
Duchenne muscular dystrophy, Obstructive apnoeas in Duchenne muscular dystrophy, **157**
Dust
Exposure of grain handlers to dust and endotoxin and their respiratory health, **1054P**
Levels of personal dust and endotoxin exposures in workers exposed to organic dusts, **1054P**
D(V-aPco$_2$), D(V-aPco$_2$) reflects both peripheral metabolism and changes in pulmonary ventilation in the pig hind limb under cardiopulmonary bypass, **430P**
Dyspnoea, Effect of cognitive and behavioural therapy on dyspnoea in the "pink puffer" syndrome, **393P**

E
E1A-T2, Type I collagen formation in rat type II alveolar cells immortalised by viral gene products, **201**
Earlobe blood gas analysis, Arterialised earlobe blood gas analysis: an underused technique, **364**
Echocardiography, Correlation of echocardiography and right heart catheter in systemic sclerosis, **431P**
Education centre, Prospective controlled evaluation of the effect of a community based asthma education centre in a multiracial working class neightbourhood, **976**
Eformoterol, Bronchodilator subsensitivity after chronic dosing with eformoterol in patients with asthma, **396P**
Eformoterol dry powder, Tolerance of bronchodilator and systemic beta$_2$ adrenoceptor responses after regular twice daily treatment with eformoterol dry powder in asthmatic patients, **1047P**
Emphysema
Collagen content of alveolar wall tissue in emphysematous and non-emphysematous lungs, **319**
Congenital cutis laxa with a dominant inheritance and early onset emphysema, **836**
F-met-leu-phe receptors are increased in neutrophils from subjects with emphysema who continue to smoke, **419P**
Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**
Empyema
Empyema and mediastinitis complicating retropharyngeal abscess, **1179**
Intrapleural streptokinase in the management of emphyema, **856**
Role of streptokinase in the treatment of acute loculated parapneumonic pleural effusions and empyema, **852**
Empyema thoracis, Treatment of empyema thoracis: *editorial*, **845**
End tidal CO_2, Oximetric saturation and end tidal CO_2 as predictors of respiratory failure in patients with acute obstructive pulmonary disease, **1074P**
Endobronchial nocardial infection, Endobronchial nocardial infection: *letter*, **385**
Endobronchial valves, Endobronchial valves: *letter*, **528**
Endocrine lung, The endocrine lung and its response to hypoxia, **S25**
Endothelial cell monolayers, Time course of permeability increase induced by hyperoxia in cultured endothelial cell monolayers, **407P**
Endothelial cells, Effects of hyperoxia on endothelial cells: evidence for early biochemical damage, **407P**
Endothelial permeability, Pulmonary endothelial permeability in patients with severe lung injury, **397P**
Endothelin
Endothelin in bronchoalveolar lavage fluid and its relationship to airflow obstruction in asthma, **1065P**
Receptor subtypes mediating contraction to endothelin-1 in bovine bronchi, **423P**
Relation of smoking to immunoreactive endothelin in the bronchiolar epithelial cells, **786**
Endotoxin
Exposure of grain handlers to dust and endotoxin and their respiratory health, **1054P**
Levels of personal dust and endotoxin exposures in workers exposed to organic dusts, **1054P**
Enoximone, Enoximone causes vasorelaxation of isolated human pulmonary arteries, **1070P**

Environment, Increase in asthma: a more toxic environment or a more susceptible population?, **171**
Eosinophilic endomyocardial disease, Eosinophilic endomyocardial disease due to high grade chest wall sarcoma, **1040**
Eosinophils
Bronchial epithelial cells and eosinophils express 15-lipoxygenase in asthma, **1065P**
Effect of low dose oral theophylline on bronchial wall eosinophils after allergen challenge in atopic asthma, **1066P**
Eosinophilic activation in cystic fibrosis, **496**
Relation of serum IgE, eosinophils, smoking, and bronchial responsiveness to FEV_1/FVC in a middle aged and elderly population, **416P**
Epithelial cells, Effects of cigarette smoke on epithelial cells of the respiratory tract, **825**
Epithelial lung surface proteins, Comparison of extracellular epithelial lung surface proteins in paired lavages from the same subjects, **1077P**
Epithelial permeability
Effect of acute cigarette smoking on epithelial permeability, inflammation and oxidant status in the airspaces of chronic smokers, **1077P**
Respiratory epithelial permeability to plasma proteins following exposure to 100% oxygen in rats, **407P**
Epworth sleepiness scale, Clinical usefulness of the Epworth sleepiness scale in suspected sleep apnoea, **411P**
Erythromycin, Why use erythromycin? *editorial,* **944**
Ethambutol, *Mycobacterium kansasii* pulmonary infection: a prospective study of the results of nine months of treatment with rifampicin and ethambutol, **442**
Ethinic differences, Respiratory symptoms of rural Fijian and Indian children in Fiji, **1201**
Etoposide, Feasibility of using glycosylated recombinant human granulocyte colony stimulating factor to increase the dose intensity of doxorubicin, cyclophosphamide and etoposide in small cell lung cancer, **428P**
Everest, Breathless on Everest: *adventitia,* **249, 269**
Evolution, Evolution and the pulmonary circulation, **S5**
Ex-smokers, Neutrophilia in induced sputum from smokers and ex-smokers is directly related to the severity of airflow limitation, **1078P**
Exercise
A placebo controlled comparison of the effect of oral bambuterol and inhaled terbutaline against exercise induced asthma, **403P**
Age and exercise induced bronchospasm in asthmatic children, **398P**
Comparison of the effects of salmeterol and salbutamol on the endurance exercise capacity of men with mild asthma, **429P**
Cross refractoriness between sodium metabisulphite and exercise induced asthma, **245**
Dose ranging study to evaluate the effects of salbutamol on exercise induced $beta_2$ adrenoceptor responses in normal subjects, **1050P**
Effect of exercise on the nasal transmucosal potential difference in patients with cystic fibrosis and normal subjects, **1249**
Effect of inspiratory pressure support on exercise tolerance and breathlessness in patients with severe stable chronic obstructive pulmonary disease, **990**
Effect of nebulised morphine and morphine 6-glucuronide on exercise endurance in patients with chronic obstructive pulmonary disease, **393P**
Effect of theophylline on exercise performance in patients with severe chronic obstructive pulmonary disease, **332:** *letter,* **1182**
Prevention of exercise induced bronchoconstriction by inhaled frusemide in children, **398P**
Relation of lung function, maximal inspiratory pressure, dyspnoea, and quality of life with exercise capacity in patients with chronic obstructive pulmonary disease, **468**
Response of the nose to exercise in healthy subjects and in patients with rhinitis and asthma, **128**
Within subject reproducibility of the bronchoconstrictive response to exercise when heat loss is kept constant, **429P**
Exercise desaturation, Nocturnal oxygen desaturation and exercise desaturation in subjects with chronic obstructive pulmonary disease, **1063P**
Exercise test
Exercise testing and prognosis in adult cystic fibrosis, **1075P**
Simplified exercise test for the initial differential diagnosis of *Pneumocystis carinii* pneumonia in HIV antibody positive patients, **112:** *letters,* **729, 940**
Spontaneous improvement in a patient with the hepatopulmonary syndrome assessed by serial exercise tests, **725**
Exhalation, Measurement of transfer factor during constant exhalation, **1121**
Exhalation techniques, Comparison of exhalation techniques for use in serial measurements of lung function for the diagnosis of occupational asthma, **1057P**

F

F-met-leu-phe receptors, F-met-leu-phe receptors are increased in neutrophils from subjects with emphysema who continue to smoke, **419P**
Face masks
Comparison of face and nasal masks for non-invasive ventilation in COPD patients, **1063P**
Cost effective moulded face masks for nasal ventilation, **1063P**
Farmers, Influence of barn drying of fodder on respiratory symptoms and function in dairy farmers of the Doubs region of France, **50**
Fenoterol, Extrapulmonary effects of fenoterol and salbutamol in normal subjects: *letter,* **191**
Fertility
Fertility in men with primary ciliary dyskinesia presenting with respiratory infection, **684**
Relation of pulmonary lymphangioleiomyomatosis to use of the oral contraceptive pill and fertility in the UK, **910**
Fetal lung, Characterisation of the beta adrenergic response cascade in fetal guinea pig lung, **664**
Fetal lung compliance, Fetal lung compliance in premature and term lambs after two methods of in utero repair of diaphragmatic hernia, **1015**
FEV_1, Comparison of circadian variations using FEV_1 and peak expiratory flow rates among normal and asthmatic subjects, **775**
FEV_1/FVC, Relation of serum IgE, eosinophils, smoking, and bronchial responsiveness to FEV_1/FVC in a middle aged and elderly population, **416P**
Fibreoptic bronchoscope, Insertion of a self-expandable endotracheal metal stent using topical anaesthesia and a fibreoptic bronchoscope: a comfortable way to offer palliation, **87**
Fibreoptic bronchoscopic electrosurgery, Fibreoptic bronchoscopic electrosurgery under local anaesthesia for rapid palliation in patients with central airway malignancies, **1243**
Fibreoptic bronchoscopy, Fibreoptic bronchoscopy: audit and clinicopathological review may improve diagnostic yield, **1059P**
Fibroblasts
Collagen breakdown products and lung collagen metabolism: an in vitro study on fibroblast cultures, **312**
Effect of mediators from normal and fibrotic lung fibroblasts on neutrophil activation, **419P**
Fibroids, Relation of pulmonary lymphangioleiomyomatosis to use of the oral contraceptive pill and fertility in the UK, **910**
Fibrosing alveolitis
Accuracy of CT appearances of fibrosing alveolitis: *letter,* **385**
Alveolar macrophages from patients with fibrosing alveolitis secrete more TNFalpha than patients with sarcoidosis and normal individuals, **408P**
Fibrosing alveolitis and desquamative interstitial pneumonitis, **415P**
Interleukin 5 and interleukin 8 gene expression: key cytokines in fibrosing alveolitis, **397P**
Fibrosing lung disease, Lymphocyte chemokine RANTES is expressed in patients with fibrosing lung disease and also in normal lung, **408P**
Fiji, Respiratory symptoms of rual Fijian and Indian children in Fiji, **1201**
Filters, Passage of bacteria through piece filters designed for use in tests of forced expiration, **1068P**
Flare and weal, Hypertonic saline injected intradermally causes flare and weal by neural and vascular mechanisms, **1064P**
Floor cleaner, Occupational asthma due to indirect exposure to lauryl dimethyl benzyl ammonium chloride used in a floor cleaner, **842**
Flour workers, Diurnal peak expiratory flow variability and a respiratory symptoms questionnaire in laboratory animal and flour workers, **401**
Flow cytometric analysis, Flow cytometric analysis of BAL and peripheral blood T lymphocyte cytokine-generating potential in asthmatics and non-asthmatics, **1065P**
Fluoride, Relation between exposure to fluoride and bronchial responsiveness in aluminium portroom workers with work-related asthma-like symptoms, **984**
Fluoroscopically guided percutaneous gastrostomy, Fluoroscopically guided percutaneous gastrostomy in patients with cystic fibrosis, **519**

Fluticasone propionate
Comparative systemic bioactivity of inhaled budesonide and fluticasone propionate in healthy subjects, **1047P**
Effect of fluticasone propionate on neutrophil chemotaxis, superoxide generation, and extracellular proteolytic activity in vitro, **207**
Effects of fluticasone propionate 1 mg and 2 mg daily and budesonide 1·6 mg daily in severe asthmatics, **403P**
Equipotency of budesonide and fluticasone propionate in the vasoconstriction assay, **422P**
Fluticasone propionate *v* beclomethasone dipropionate in moderate to severe asthma: *letter,* **385**
Forced expiration technique, Regional lung clearance during cough and forced expiration technique (FET), **557**
Forced expiratory ratios, Evaluation of asymptomatic subjects with low forced expiratory ratios (FEV_1/VC), **554**
Foregut duplication cyst, Foregut duplication cyst presenting as neonatal respiratory distress and haemoptysis, **287**
Foreign body, Removal of a dental post from the bronchus by interventional cardiovascular techniques, **526**
Formoterol dry powder, Formoterol dry powder in asthma: *letter,* **95**
France, Influence of barn drying of fodder on respiratory symptoms and function in dairy farmers of the Doubs region of France, **50**
Free radicals, Role of free radicals in the pathogenesis of cystic fibrosis: *editorial,* **738**
Frusemide
Effect of inhaled frusemide on responses of airways to bradykinin and adenosine 5′-monophosphate in asthma, **485**
Effect of loop diuretics on cholinergic neurotransmission in human airways in vitro, **657**
Inhibition of sodium metabisulphite induced bronchoconstriction by frusemide in asthma: role of cyclooxygenase products, **307**
Prevention of exercise induced bronchoconstriction by inhaled frusemide in children, **398P**
Functional residual capacity, Changes in functional residual capacity and pattern of resting breathing with the "Hayek oscillator", **414P**
Fungal pneumonia, Pulmonary infections in the tropics: impact of HIV infection, **370**

G
beta-Galactosidase, Transfection of cultured human airway smooth muscle cells with beta-galactosidase reporter construct, **423P**
Gas analysis, Pulmonary vein gas analysis is superior to peripheral arterial gas analysis for assessing individual donor lung function, **1070P**
Gas exchange
Gas exchange abnormalities in pulmonary vascular and cardiac disease, **1169**
Improved gas exchange after pneumonectomy in an adult with incomplete pulmonary vein atresia, **723**
Gas transfer, Single lung alveolar volume and gas transfer: effect of expansion of the other lung, **1238**
Gas volumes, Variations in gas volumes inspired over one hour: implications for exposure systems used in the study of the health effects of air pollutants, **399P**
Gastrin, Gastrin in small cell lung cancer: cloning of the receptor, Ca^{2+} mobilisation and growth, **427P**
Gastrointestinal absorption, Gastrointestinal absorption of inhaled budenoside in healthy adults: is it significant? **1072P**
Gemcitabine, Confirmatory activity of gemcitabine in non-small cell lung cancer, **428P**
Gene therapy, Gene therapy for cystic fibrosis: safety of the cationic liposome, **408P**
General physicians, Changes in the management of acute severe asthma by general and thoracic physicians in Manchester between 1985 and 1990-1, **1044P**
General practice
GPIAG national audit of asthma attacks, **1044P**
Importance of respiratory infection in general practice in the 1990s, **1066P**
Study of the usefulness of sputum microscopy and culture in general practice, **1066P**
Survey of the clinical features of adult asthma in volunteers recruited from general practice between 1987 and 1990, **1073P**
Glacial acetic acid, Late asthmatic response to inhaled glacial acetic acid, **727**
Glucocorticoid receptor cDNA, Chemical mutational analysis of the human glucocorticoid receptor cDNA in glucocorticoid-resistant bronchial asthma, **1051P**
Glucocorticoids
Prevention of further bone mass loss by nasal calcitonin in patients on long term glucocorticoid therapy for asthma, **1099**
Serum interleukin 5 concentrations in atopic and non-atopic patients with glucocorticoid-dependent chronic severe asthma, **1231**
Glucocorticosteroids, Inhaled corticosteroid therapy in children: an assessment of the potential for side effects: *editorial,* **1185**
Glutathione levels, Effect of *N*-acetyl cysteine on the concentrations of thiols in plasma, bronchoalveolar lavage fluid, and lung tissue, **670**
Glutathione S-transferases, Heterogeneous expression and polymorphic genotype of glutathione S-transferases in human lung, **1010**
Goitre, Upper airway obstruction due to inoperable intrathoracic goitre treated by tracheal endoprosthesis, **1034**
Gold compound, Effect of an oral gold compound, auranofin, on non-specific bronchial hyperresponsiveness in mild asthma, **649**
GR106642X
Salbutamol inhaler using a non-chlorinated propellant, GR106642X: systemic pharmacodynamic activity in healthy volunteers, **402P**
Salmeterol inhaler using a non-chlorinated propellant, GR106642X: systemic pharmacodynamic activity in healthy volunteers, **402P**
Graft lung volume, Graft lung volume after single lung transplantation, **1070P**
Grain handlers, Exposure of grain handlers to dust and endotoxin and their respiratory health, **1054P**
Granulocyte colony stimulating factor, Feasibility of using glycosylated recombinant human granulocyte colony stimulating factor to increase the dose intensity of doxorubicin, cyclophosphamide and etoposide in small cell lung cancer, **428P**

H
Haemangiopericytoma, Recurrent haemoptysis in a young woman: a case of a malignant haemangiopericytoma of the lung, **188**
Haemodynamics, Effects of chronic aorta-pulmonary shunting on pulmonary haemodynamics in growing pigs, **423P**
Haemophilus influenzae, Effects of subminimal inhibitory concentration (MIC) of antibiotics on the morphology of non-typable *Haemophilus influenzae,* **409P**
Haemoptysis
Foregut duplication cyst presenting as neonatal respiratory distress and haemoptysis, **287**
Recurrent haemoptysis in a young woman: a case of a malignant haemangiopericytoma of the lung, **188**
Haemothorax
Massive haemothorax secondary to angiosarcoma, **1036**
Osteochondroma of the rib: an unusual cause of haemothorax, **618**
Hayek oscillator, Changes in functional residual capacity and pattern of resting breathing with the "Hayek oscillator", **414P**
Health care, How to keep the customer satisfied, **279**
Health care workers, Use of nebulised antimicrobial agents and precautions taken to avoid occupational exposure of health care workers in the West Midlands, **400P**
Heart, The heart and lungs at extreme altitude: *editorial,* **631**
Heart-lung transplantation
Bronchiolitis obliterans syndrome after heart/lung transplantation, **406P**
Colonisation of lung allografts with *Pseudomonas aeruginosa* in heart-lung transplant recipients with cystic fibrosis, **721**
Cystic fibrosis patients survival and resource use: a comparative study of heart and lung transplantation and conventional treatment, **1050P**
Heart/lung or double lung transplant for cystic fibrosis/bronchiectasis? **1050P**
Heath, Donald, an appreciation, **S1**
Heimlich flutter valve, Use of a Heimlich flutter valve for pneumothorax in cystic fibrosis, **1178**
Hemidiaphragm, Excursion-volume relation of the right hemidiaphragm measured by ultrasonography and respiratory airflow measurements, **885**
Hemidiaphragmatic movement, Ultrasound assessment of normal hemidiaphragmatic movement: relation to inspiratory volume, **500:** *letter,* **1278**
Hemiplegia, Diaphragmatic movement in hemiplegic patients measured by ultrasonography, **890**
Heparin, Effect of inhaled heparin on bronchial reactivity to sodium metabisulphite and methacholine in subjects with asthma, **1064P**

Hepatic failure, Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **396P**
Hepatopulmonary syndrome, Spontaneous improvement in a patient with the hepatopulmonary syndrome assessed by serial exercise tests, **725**
Hermansky-Pudlak syndrome, Diffuse pulmonary fibrosis and the Hermansky-Pudlak sysndrome, **617**
Heroin abuse, Delayed resolution of pulmonary oedema after cocaine/heroin abuse, **1038**
High altitude, Adaptation and acclimatisation in humans and animals at high altitude, **S9**
High oxygen partial pressures, Effects of sample storage time, temperature and syringe type on blood gas tensions in samples with high oxygen partial pressures, **610**
High resolution computed tomography, High resolution computed tomography scanning to evaluate structural changes in lungs of patients with severe chronic asthma, **430P**
Histamine, Histamine induced changes in breathing pattern may precede bronchoconstriction in selected patients with bronchial asthma, **639**
Histoplasmosis
Histoplasmosis and pulmonary involvement in the tropics, **598**
Introduction to tropical respiratory medicine, **369**
HIV
Cellular tropism of HIV-1 strains isolated simultaneously from peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
Community acquired lobar pneumonia in patients with HIV infection and AIDS, **367**
Disease due to *Mycobacterium tuberculosis* is less common than expected in HIV positive patients in Edinburgh, **1055P**
Drug resistant tuberculosis in south east England, 1981–92, in HIV and non-HIV populations, **434P**
Endobronchial HIV associated lymphoma, **525**
HIV-1 proviral DNA copy number in peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
Impact of human immunodeficiency virus on tuberculosis in developing countries, **511:** *letter,* **1278**
Introduction to tropical respiratory medicine, **369**
Mycobacterial disease presenting as pyrexia of underdetermined origin in patients with HIV infection and AIDS, **1055P**
Nosocomial transmission of tuberculosis in an HIV care centre in the UK identified by RFLP analysis, **1055P**
Open lung biopsy in HIV positive patients with acute respiratory episodes and negative bronchoscopic investigations, **432P**
Progressive HIV infection is characterised by a relative reduction in alveolar macrophages with antigen presenting phenotype, **1077P**
Pseudotumour of the lung caused by *Mycobacterium malmoense* infection in an HIV positive patient, **179:** *letter,* **844**
Pulmonary infections in the tropics: impact of HIV infection, **370**
Radiological appearances of bronchopulmonary infection with *Pseudomonas aeruginosa* in HIV positive patients, **1068P**
Respiratory tract infection with *Pseudomonas aeruginosa* in late HIV disease, **1049P**
Simplified exercise test for the initial differential diagnosis of *Pneumocystis carinii* pneumonia in HIV antibody positive patients, **112:** *letters,* **729, 940**
Survival in HIV positive intravenous drug users after a first episode of *Pneumocystis carinii* pneumonia, **432P**
Tuberculosis and HIV: light after darkness: *editorial,* **537**
HIV-1 infection, Does analysis of bronchoalveolar lavage fluid provide a tool to monitor disease progression or to predict survival in patients with HIV-1 infection? *editorial,* **848**
HLA-DR gene, Analysis of restriction fragment length polymorphism for the HLA-DR gene in Japanese patients with sarcoidosis, **573**
Hodgkin's disease, Pneumothorax following thoracic radiation therapy for Hodgkin's disease, **936**
Home bronchodilator treatment, Comparison between nebulisers and spacers for home bronchodilator treatment in COPD, **392P**
Home nebuliser
Audit of home nebuliser use in childhood asthma, **399P**
Use of lung function tests to predict subjective response from home nebulisers, **1076P**
Hormone replacement, Effect of short term hormone replacement in the treatment of obstructive sleep apnoea in postmenopausal women, **699**
Hospitals
Hospital admissions for asthma in Zaria, Northern Nigeria, **1073P**
Occupational asthma among hospital health care personnel: a cause for concern? *editorial,* **198**
Re-evaluation of pneumonia requiring admission to an intensive care unit: a prospective study, **71**
Risk factors for readmission to hospital for asthma in childhood, **33**
House dust mite
Effect of dehumidifiers on mite counts and house dust mite allergen *Der p* I, **1072P**
Effect of exposure to domestic concentrations of nitrogen dioxide on the airway response to inhaled house dust mite in asthma, **1048P**
Use of mechanical ventilation in British domestic dwellings and mite control, **1048P**
5-Hydroxytryptamine
Contractile responses of sumatriptan and 5-HT in human pulmonary arteries, **425P**
Serotonin and pulmonary artery vasoconstrictor responses in humans, **425P**
Hyperinflation
Assessment of hyperinflation in children with cystic fibrosis, **1164**
Effects of body position, hyperinflation, and blood gas tensions on maximal respiratory pressures in patients with chronic obstructive pulmonary disease, **453**
Hyperoxia
Effects of hyperoxia on endothelial cells: evidence for early biochemical damage, **407P**
Pulmonary vascular impedance and resistance in hyperoxia and in hypoxia: dogs *v* pigs, **423P**
Respiratory epithelial permeability to plasma proteins following exposure to 100% oxygen in rats, **407P**
Time course of permeability increase induced by hyperoxia in cultured endothelial cell monolayers, **407P**
Hyperresponsiveness, Bronchodilators and bronchial hyperresponsiveness: *letters,* **190, 1181**
Hypertonic saline, Hypertonic saline injected intradermally causes flare and weal by neural and vascular mechanisms, **1064P**
Hypobaric hypoxia, Adaptation and acclimatisation in humans and animals at high altitude, **S9**
Hypogammaglobulinaemia, Localised pulmonary resection for bronchiectasis in hypogammaglobulinaemic patients, **509**
Hypoxaemia
Quality of life in patients with COPD and severe hypoxaemia, **1074P**
The heart and lungs at extreme altitude: *editorial,* **631**
Hypoxia
Atrial natriuretic peptide modulates pulmonary haemodynamics in hypoxic COPD, **392P**
Effect of correction of hypoxia on proteinuria in chronic obstructive lung disease, **417P**
Effect of superoxide dismutase on hypoxic pulmonary vasoconstriction after ischaemia-reperfusion in the isolated blood perfused rat lung, **424P**
Effects of the Ca^{2+} antagonist nifedipine on isolated pulmonary arteries from normoxic and chronically hypoxic rats, **424P**
Estimation of the pulmonary haemodynamic response to hypoxia using Doppler echocardiography in subjects travelling to extreme altitudes: results from the British 40th anniversary Everest expedition, **391P**
Hypoxia and the pulmonary circulation, **S19**
Method for assessing the dynamic nature of pulmonary blood flow reduction during lobar hypoxia in man, **391P**
Neutral endopeptidase inhibition in rats with hypoxic pulmonary hypertension, **424P**
Priming effects of hypoxia on function of rat alveolar macrophages, **420P**
Pulmonary vascular impedance and resistance in hyperoxia and in hypoxia: dogs *v* pigs, **423P**
The endocrine lung and its response to hypoxia, **S25**
Ultrastructure of the lung in chronic hypoxia, **S27**
Hypoxia-induced pulmonary hypertension, The heart and lungs at extreme altitude: *editorial,* 631
Hypoxic pulmonary vasoconstrictor response, Lisinopril attenuates the hypoxic pulmonary vasoconstrictor response: evidence for a facilitatory role of angiotensin II, **1071P**

I
^{125}I efflux, Assesment of chloride secretion across human nasal epithelium using ^{125}I efflux, **414P**
Iloprost, Long term treatment of severe pulmonary hypertension with intravenous Iloprost, **1070P**
Immunocompromised host, Use of bronchoscopy in the diagnosis of infection in the immunocompromised host: *editorial,* **3**

Immunoglobulin E
Association of age, sex and smoking with total IgE and specific IgE in young adults living in East Anglia, **387P**
Relation of serum IgE, eosinophils, smoking, and bronchial responsiveness to FEV_1/FVC in a middle aged and elderly population, **416P**
Rise in total IgE as an indicator of allergic bronchopulmonary aspergillosis in cystic fibrosis, **1002**
Immunoglobulin G, Serum IgG response to an 80 kDa outer membrane protein of *Pseudomonas cepacia* in patients with cystic fibrosis, **414P**
Immunoglobulin G_4, Inability to produce IgG_4 in the lungs in sarcoidosis is modified by treatment, **398P**
Immunological assays, Development of immunological assays to monitor pulmonary allograft rejection, **151**
Immunomodulation, Withdrawing chronic theophylline causes immunomodulation in the blood of asthmatic patients, **396P**
Immunoprophylaxis, The pneumococcus: host-organism interactions and their implications for immunotherapy and immunoprophylaxis: *editorial*, **946**
Immunotherapy, The pneumococcus: host-organism interactions and their implications for immunotherapy and immunoprophylaxis: *editorial*, **946**
Incomplete pulmonary vein atresia, Improved gas exchange after pneumonectomy in an adult with incomplete pulmonary vein atresia, **723**
Indium-111 pentetreotide, Imaging of bronchial carcinoid tumours with indium-111 pentetreotide, **284**
Indomethacin, Effects of indomethacin on peripheral neutrophil function and lung secretions in bronchiectasis, **420P**
Industrial injury benefit, Industrial injury benefit for occupational asthma in the Northern region 1991–2, **1074P**
Infection, Use of bronchoscopy in the diagnosis of infection in the immunocompromised host: *editorial*, **3**
Inflammation
Effect of acute cigarette smoking on epithelial permeability, inflammation and oxidant status in the airspaces of chronic smokers, **1077P**
Role of inflammation in nocturnal asthma, **257**
Inflammatory markers, Effect of antibiotic treatment of inflammatory markers and lung function in cystic fibrosis patients with *Pseudomonas cepacia*, **803**
Influenza
Influenza immunisation status and viral respiratory tract infections in patients with chronic airflow limitation, **1067P**
Influenza vaccination: *editorial*, **1079**
Information technology, Information technology in a department of respiratory medicine: cost analysis, **1075P**
Inhaled anti-asthma drugs, Which patients are prescribed inhaled anti-asthma drugs?, **1090**
Inhaled corticosteroid therapy, Inhaled corticosteroid therapy in children: an assessment of the potential for side effects: *editorial*, **1185**
Initial conditions: *adventitia*, **713**
Initial peak flow, Initial peak flow less than 50% of the expected value predicts respiratory failure in asthmatic patients, **1044P**
Inspiratory muscle relaxation rate, Inspiratory muscle relaxation rate assessed from sniff nasal pressure, **1127**
Inspiratory pressure support, Effect of inspiratory pressure support on exercise tolerance and breathlessness in patients with severe stable chronic obstructive pulmonary disease, **990**
Inspiratory volume, Ultrasound assessment of normal hemidiaphragmatic movement: relation to inspiratory volume, **500**: *letter*, **1278**
Intercellular adhesion molecule-1, Soluble ICAM-1 release is preferentially higher in the asthmatic lung than peripheral blood, but is not altered by allergen challenge, **422P**
Interleukin 5
Interleukin 5 and interleukin 8 gene expression: key cytokines in fibrosing alveolitis, **397P**
Serum interleukin 5 concentrations in atopic and non-atopic patients with glucocorticoid-dependent chronic severe asthma, **1231**
Transcriptional regulation of IL-5 gene expression in human T cells, **421P**
Interleukin 8
Desensitisation of neutrophil responses by systemic interleukin 8 in cystic fibrosis, **867**
Interleukin 5 and interleukin 8 gene expression: key cytokines in fibrosing alveolitis, **397P**
Monocyte interleukin-8 responses to lipopolysaccharide stimulation and dexamethasone inhibition: a single cell analysis, **421P**
Plasma immunoreactive interleukin 8 in cystic fibrosis, **415P**
Interleukin 10
Possible role of interleukin 10 in regulating the functional capacity of alveolar macrophages, **420P**
Reduction of LPS-induced tumour necrosis factor-alpha release by macrophages/monocytes in response to interleukin 10, **1078P**
Interstitial pulmonary fibrosis
New insights into the pathogenesis of interstitial pulmonary fibrosis: *editorial*, **193**
Type I collagen formation in rat type II alveolar cells immortalised by viral gene products, **201**
Interventional cardiovascular techniques, Removal of a dental post from the bronchus by interventional cardiovascular techniques, **526**
Intralobar bronchopulmonary sequestration, Intralobar bronchopulmonary sequestration: antenatal diagnosis, **379**
Intralobar pulmonary sequestration, Intralobar pulmonary sequestration and mediastinal bronchogenic cyst, **615**
Intrapulmonary shunts, Ventilatory chemosensitivity in patients with intrapulmonary shunts, **430P**
Intrauterine and postnatal growth, Association of intrauterine and postnatal growth with ventilatory function in early adult life, **1052P**
Inulin, Use of inulin to compare volumes of lung fluid sampled by bronchoalveolar lavage in atopic asthmatic patients and normal subjects, **423P**
Ion transport defect, Correction of the ion transport defect in the airways of the insertional cystic fibrosis mouse model by liposome mediated gene therapy, **394P**
Iron, Transient iron overload with bleomycin detectable iron in the plasma of patients with adult respiratory distress syndrome, **707**
Ischaemia-reperfusion, Effect of superoxide dismutase on hypoxic pulmonary vasoconstriction after ischaemia-reperfusion in the isolated blood perfused rat lung, **424P**
Isoniazid, Tuberculous pleural effusion: experience with six months of treatment with isoniazid and rifampicin, **1160**

J
J001X scintigraphy, Imaging of pulmonary disease in scleroderma with J001X scintigraphy, **504**
Jet nebuliser foot pump, Assessment of third world drug delivery via a jet nebuliser foot pump, **1059P**
Johannesburg, A respiratory survey in a black Johannesburg workforce, **340**

K
Kaposi's sarcoma, Results of chemotherapy in 30 AIDS patients with symptomatic pulmonary Kaposi's sarcoma, **958**
Ketamine, Response to ketamine in status asthmaticus resistant to maximal medical treatment, **90**
Kyphoscoliosis, Ambulatory oxygen therapy in kyphoscoliosis, **418P**

L
L-NAME, Effects of chronic oral treatment with a nitric oxide blocker, L-NAME, on hypoxic pulmonary vasoconstriction in the rat, **426P**
Laboratory animal workers, Diurnal peak expiratory flow variability and a respiratory symptoms questionnaire in laboratory animal and flour workers, **401**
Laser endoscopy, Tracheal schwannoma: management by endoscopic laser resection, **85**
Lauryl dimethyl benzyl ammonium chloride, Occupational asthma due to indirect exposure to lauryl dimethyl benzyl ammonium chloride used in a floor cleaner, **842**
Leeds, Childhood tuberculosis in Leeds, 1982–90: social and ethnic factors and the role of the contact clinic in diagnosis, **184**
Left main bronchus, Congenital oesophagobronchial fistula in an adult involving left main bronchus, **835**
Legionnaire's disease
A Philadelphia summer: *adventitia*, **663**
Intravenous azithromycin as salvage therapy in a patient with Legionnaire's disease, **620**
Leucocyte adhesion deficiency, Neutrophil adhesion and migration in a child with leucocyte adhesion deficiency, **419P**
Leucocytes, Oesophagogastrectomy and whole blood rheology: leucocyte priming in vivo? **419P**
Leukotriene antagonist, Magnitude and duration of the inhibitory effects of SK&F 106203 on LTD_4 induced bronchoconstriction in healthy volunteers, **422P**

Leukotriene$_4$, Effects of aspirin desensitisation on urinary LTE_4 levels and FEV_1 in aspirin-sensitive asthmatic patients, **1065P**
Lignocaine, Effects of inhaled lignocaine and adrenaline on capsaicin-induced cough in humans, **1166**
Limb girdle muscular dystrophy, Lung and respiratory muscle function in limb girdle muscular dystrophy, **61**
Lipopolysaccharide
Monocyte interleukin-8 responses to lipopolysaccharide stimulation and dexamethasone inhibition: a single cell analysis, **421P**
Reduction of LPS-induced tumour necrosis factor-alpha release by macrophages/monocytes in response to interleukin 10, **1078P**
Liposome, Gene therapy for cystic fibrosis: safety of the cationic liposome, **408P**
5-Lipoxygenase inhibitor
Effect of the 5-lipoxygenase inhibitor ZD2138 on allergen-induced early and late asthmatic responses, **743**
Effect of the 5-lipoxygenase inhibitor ZD2138 on aspirin-induced asthma, **749**
15-Lipoxygenase, Bronchial epithelial cells and eosinophils express 15-lipoxygenase in asthma, **1065P**
Lisinopril, Lisinopril attenuates the hypoxic pulmonary vasoconstrictor response: evidence for a facilitatory role of angiotensin II, **1071P**
Loculated effusion, Pulmonary blastoma in an adult presenting as a chronic loculated effusion, **838**
London, Characteristics of patients with drug resistant and drug sensitive tuberculosis in East London between 1984 and 1992, **808**
Long term oxygen therapy, LTOT in COPD: *letter*, **529**
Loop diuretics, Effect of loop diuretics on cholinergic neurotransmission in human airways in vitro, **657**
Lung
Acute tropical infections and the lung, **714**
The endocrine lung and its response to hypoxia, **S25**
The heart and lungs at extreme altitude: *editorial*, **631**
Lung alveolar volume, Single lung alveolar volume and gas transfer: effect of expansion of the other lung, **1238**
Lung biopsy
Efficacy of video assisted thoracoscopic lung biopsy: an historical comparison with open lung biopsy, **361**
Open lung biopsy in HIV positive patients with acute respiratory episodes and negative bronchoscopic investigations, **432P**
Lung cancer (carcinoma)
Analysis of published studies on the detection of extrathoracic metastases in patients presumed to have operable non-small cell lung cancer, **14**
Atypical alveolar hyperplasia and adenocarcinoma of the lung, **427P**
Audit of management practices and outcome in patients with lung cancer in South East Scotland, **1061P**
Can histological subtypes of bronchial carcinoma be differentiated by magnetic resonance imaging? **1059P**
Carcinoma of the bronchus in Yorkshire 1976 to 1990: trends since 1984, **427P**
Fibreoptic bronchoscopic electrosurgery under local anaesthesia for rapid palliation in patients with central airway malignancies, **1243**
Fibreoptic bronchoscopy: audit and clinicopathological review may improve diagnostic yield, **1059P**
Imaging of bronchial carcinoid tumours with indium-111 pentetreotide, **284**
Increased prevalence of adenocarcinoma of the bronchus in Yorkshire, **427P**
Outcome of bronchoscopy for suspected lung cancer in a university general hospital, **1060P**
p53 gene product expression in resected lung cancers, **1059P**
Percutaneous biopsy or bronchoscopy for suspected peripheral lung cancer: the patient's view, **1060P**
Photodynamic therapy for treatment of bronchial carcinomas: *letter*, **289**
Preoperative computed tomographic scanning for staging lung cancer: *editorial*, **941**
Preoperative screening for metastases in lung cancer: *editorial*, **1**
Preoperative staging of carcinoma of the bronchus: can computed tomographic scanning reliably identify stage III tumours?, **951**
Surgery for lung cancer in patients over the age of 70 years, **1061P**
Surgical resection for pulmonary metastases of sweat gland carcinoma, **181**
Surgical resection for small cell carcinoma of the lung: a retrospective study, **20**: *letter*, **624**
Ultrasound guided pericardial drainage and intrapericardial instillation of mitomycin C for malignant pericardial effusion, **594**
Lung clearance, Regional lung clearance during cough and forced expiration technique (FET), **557**
Lung collagen, Collagen breakdown products and lung collagen metabolism: an in vitro study on fibroblast cultures, **312**
Lung collapse, Total lung collapse after pulmonary infarction, **938**
Lung, fetal, Fetal lung compliance in premature and term lambs after two methods of in utero repair of diaphragmatic hernia, **1015**
Lung function
Comparison of exhalation techniques for use in serial measurements of lung function for the diagnosis of occupational asthma, **1057P**
Dietary intake of vitamins C and E and lung function in older people, **1053P**
Dietary magnesium intake, lung function, wheezing, and airway hyperreactivity in a random adult population sample, **1053P**
Effect of aerosol strong acid on lung function and symptoms in asthma patients, **1047P**
Lung function reference values in Singaporean children aged 6-18 years, **901**
Lung and respiratory muscle function in limb girdle muscular dystrophy, **61**
Lung structure and function in cigarette smokers, 473: *letter*, **1276**
Pertechnegas lung clearance studies: a new method for study of pulmonary function, **1058P**
Predicted lung function for Asians: which regression equation is best? **1057P**
Pulmonary vein gas analysis is superior to peripheral arterial gas analysis for assessing individual donor lung function, **1070P**
Lung function tests
Effect of changing spirometer dead space volume on the accuracy and repeatability of lung function tests, **1057P**
Use of lung function tests to predict subjective response from home nebulisers, **1076P**
Lung growth
Early lung growth and chronic airflow obstruction: *editorial*, **533**
Lung growth: implications for the development of disease: *editorial*, **440**
Lung inflammation, Role of TNF in the increased airspace epithelial permeability in acute lung inflammation, **397P**
Lung injury
Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **396P**
Pulmonary endothelial permeability in patients with severe lung injury, **397P**
Lung protein(s), Circulating antibodies to lung protein(s) in patients with cryptogenic fibrosing alveolitis, **218**
Lung tissues
Antibiotic penetration into lung tissues: *editorial*, **104**
Penetration of co-amoxiclav into lung tissues, **1067P**
Lung toxicity, Reversal of bleomycin lung toxicity with corticosteroids: *letter*, **290**
Lung transplantation
Cytomegalovirus carriage in the lung after pulmonary transplantation, **405P**
Effect of lung transplantation on diaphragmatic function in patients with chronic obstructive pulmonary disease, **459**
Graft lung volume after single lung transplantation, **1070P**
Heart/lung or double lung transplant for cystic fibrosis/bronchiectasis? **1050P**
Paediatric lung transplantation: the agony and the ecstasy: *editorial*, **437**
Referral for lung transplantation: experience of an adult cystic fibrosis centre, **405P**
Spectrum of *Aspergillus* disease following lung transplantation, **406P**
Survival after transplantation of cystic fibrosis patients infected with *Pseudomonas cepacia*, **1050P**
Lung ultrastructure, Ultrastructure of the lung in chronic hypoxia, **S27**
Lung volume, Effect of lung volume on the transdiaphragmatic twitch pressure, **430P**
Lymphangioma, Lymphangioma of the oesophagus: a case report and review of the literature, **1267**
Lymphocytes, Withdrawing chronic theophylline treatment increases airway lymphocytes in asthma, **396P**
Lymphoid interstitial pneumonia, Pulmonary pathology in AIDS: atypical *Pneumocystis carinii* infection and lymphoid interstitial pneumonia, **S46**
Lymphoma, Endobronchial HIV associated lymphoma, **525**

M

Magnesium, Dietary magnesium intake, lung function, wheezing, and airway hyperreactivity in a random adult population sample, **1053P**

Magnetic phrenic nerve stimulation
Bilateral magnetic stimulation of the phrenic nerves using an anterior approach, **1058P**
Unilateral magnetic phrenic nerve stimulation in unilateral diaphragm paresis, **1058P**
Magnetic resonance imaging, Can histological subtypes of bronchial carcinoma be differentiated by magnetic resonance imaging? **1059P**
Male fertility, Fertility in men with primary ciliary dyskinesia presenting with respiratory infection, **684**
Malignant pericardial effusion, Ultrasound guided pericardial drainage and intrapericardial instillation of mitomycin C for malignant pericardial effusion, **594**
Malignant pleural effusions
Efficacy of short term versus long term tube thoracostomy drainage before tetracycline pleurodesis in the treatment of malignant pleural effusions, **23**
Value of DNA analysis in addition to cytological testing in the diagnosis of malignant pleural effusions, **692**
Mantoux test, Use of the 1 tuberculin unit (TU) Mantoux test in the assessment of tuberculous infection in children following neonatal BCG vaccination, **1006**
Matrix metalloproteases, Matrix metalloproteases and lung disease, **602**
Maximal respiratory efforts, Dynamic changes in the zone of apposition and diaphragm length during maximal respiratory efforts, **634**
Maximum relaxation rate, Maximum relaxation rate of the diaphragm during weaning from mechanical ventilation, **54**
Mediastinal paraganglioma, Mediastinal paraganglioma presenting as an intracardiac mass with SVC obstruction: *letter*, **625**
Mediastinitis, Empyema and mediastinitis complicating retropharyngeal abscess, **1179**
Medical audit, Audit of home nebuliser use in childhood asthma, **399P**
Medical history, Relationship between respiratory symptoms, medical history and PEF in primary school children, **1052P**
Menthol, Effect of inhaled menthol on citric acid induced cough in normal subjects, **1024**
Mesenchymal cystic hamartoma, Mesenchymal cystic hamartoma of the lung: a rare cause of relapsing pneumothorax, **1175**
Mesothelioma
Malignant pleural mesothelioma: a study of 99 cases and a call for British Thoracic Society guidelines, **1061P**
Pleural mesothelioma associated with non-Hodgkin's lymphoma, **1269**
Metabisulphite
Comparison of sulphur dioxide and metabisulphite airway reactivity in subjects with asthma, **250**
Cross refractoriness between sodium metabisulphite and exercise induced asthma, **245**
Metastases
Analysis of published studies on the detection of extrathoracic metastases in patients presumed to have operable non-small cell lung cancer, **14**
Preoperative screening for metastases in lung cancer: *editorial*, **1**
Metered dose inhalation methods, Relative bioavailability of salbutamol to the lung following inhalation using metered dose inhalation methods and spacer devices, **549**: *letter*, **1183**
Metered dose inhaler
Acute bronchoconstriction following the use of metered dose inhalers in adult asthmatics, **402P**
Pulmonary deposition and effect of terbutaline administered by metered dose inhaler or Turbohaler, **402P**
Methacholine
Effect of inhaled heparin on bronchial reactivity to sodium metabisulphite and methacholine in subjects with asthma, **1064P**
Effects of summertime ambient levels of air pollution on methacholine bronchial hyperresponsiveness in subjects with asthma, **1045P**
Modification of concentration-response curves to inhaled methacholine after the pollen season in subjects with pollen induced rhinitis, **711**
Peripheral mononuclear leucocyte ß adrenoceptors and non-specific bronchial responsiveness to methacholine in young and elderly normal subjects and asthmatic patients, **26**
Potentiating effect of inhaled acetaldehyde on bronchial responsiveness to methacholine in asthmatic subjects, **644**
Mianserin, Comparison of prednisolone and mianserin on ventilatory exercise and psychometric variables in COPD, **418P**
Microvascular exudative hyperresponsiveness, Microvascular exudative hyperresponsiveness in human coronavirus-induced common cold, **121**
Mini-Wright meter, Effect of a mini-Wright meter on the frequency and content of the peak flow manoeuvre, **1057P**
Mitomycin C, Ultrasound guided pericardial drainage and intrapericardial instillation of mitomycin C for malignant pericardial effusion, **594**
Monitoring, Continuous non-invasive monitoring of evolving acute severe asthma during sleep, **613**
Moraxella catarrhalis, How virulent strains of *Moraxella catarrhalis* evade serum killing, **410P**
Morphine, Effect of nebulised morphine and morphine 6-glucuronide on exercise endurance in patients with chronic obstructive pulmonary disease, **393P**
Motor neurone disease, Clinical significance of upper airway dysfunction in motor neurone disease, **896**
Multiple inert gas elimination technique
Contribution of multiple inert gas elimination technique to pulmonary medicine: introduction, **813**
Principles and information content of the multiple inert gas elimination technique, **815**
Ventilation-perfusion relationships in acute respiratory failure, **1251**
Muscle relaxation rate, Inspiratory muscle relaxation rate assessed from sniff nasal pressure, **1127**
Muscular dystrophy, Lung and respiratory muscle function in limb girdle muscular dystrophy, **61**
Mushroom farms, Upper and lower respiratory symptoms in two mushroom farms, **400P**
Myasthenia gravis, Breathing pattern and central ventilatory drive in mild and moderate generalised myasthenia gravis, **703**
Mycobacterial disease
Characteristics of patients with atypical mycobacterial disease, **1056P**
Mycobacterial disease in a low prevalence UK area (North East Yorkshire), **1056P**
Mycobacterial disease presenting as pyrexia of undetermined origin in patients with HIV infection and AIDS, **1055P**
Mycobacterial infection, Mycobacterial infection in Newcastle, 1990-1993: an analysis from the Newcastle TB register, **432P**
Mycobacterium kansasii
Infection with *Mycobacterium kansasii*: *editorial*, **435**
Mycobacterium kansasii pulmonary infection: a prospective study of the results of nine months of treatment with rifampicin and ethambutol, **442**
Mycobacterium malmoense
Pseudotumour of the lung caused by *Mycobacterium malmoense* infection in an HIV positive patient, 179: *letter*, **844**
Pulmonary *Mycobacterium malmoense* and aspergillus infection: a fatal combination?, **521**
Mycobacterium tuberculosis, Disease due to *Mycobacterium tuberculosis* is less common than expected in HIV positive patients in Edinburgh, **1055P**
Myotonic dystrophy
Respiratory effort perception at rest and during carbon dioxide rebreathing in patients with dystrophia myotonica, **240**: *letter*, **1181**
Sleep hypoxia in myotonic dystrophy and its correlation with awake respiratory function, **66**

N

Nasal continuous positive airway pressure, Changes in snoring characteristics after 30 days of nasal continuous positive airway pressure in patients with non-apnoeic snoring, **562**
Nasal intermittent positive pressure ventilation, Health status measured by SF-36 in recipients of domiciliary nasal intermittent positive pressure ventilation, **413P**
Nasal masks
Comparison of face and nasal masks for non-invasive ventilation in COPD patients, **1063P**
Nasal masks for domiciliary positive pressure ventilation: patient usage and complications, **811**
Nasal positive pressure ventilation
Compliance with nasal positive pressure ventilation and patterns of domiciliary use, **1063P**
Cost effective moulded face masks for nasal ventilation, **1063P**
Long term follow up of 180 patients receiving domiciliary nasal positive pressure ventilation, **1049P**
Nocturnal nasal positive pressure ventilation with supplemental oxygen therapy compared with oxygen therapy alone in stable hypercapnic COPD, **1049P**
Randomised controlled trial of nasal positive pressure ventilation

plus LTOT compared with LTOT alone: effect on blood gases and quality of life, **1064P**
Nasal pressure support ventilation, Randomised controlled study of nasal pressure support ventilation compared with oxygen therapy in stable hypercapnic chronic obstructive pulmonary disease, **413P**
Nasal ventilation, Nasal ventilation in acute exacerbations of chronic obstructive pulmonary disease: effect of ventilator mode on arterial blood gas tensions, **1222**
Nebulised antimicrobial agents, Use of nebulised antimicrobial agents and precautions taken to avoid occupational exposure of health care workers in the West Midlands, **400P**
Nebulised ß$_2$ agonists, Resting energy expenditure and use of chronic nebulised ß$_2$ agonists, **1076P**
Nebuliser delivery system
Nebuliser performance, pharmacokinetics, airways and systemic effects of salbutamol given via a novel nebuliser delivery system (Ventstream), **762**
Nebuliser performance, systemic absorption, and efficacy of salbutamol delivered via a novel nebuliser system (Ventstream), **403P**
Use of lung function tests to predict subjective response from home nebulisers, **1076P**
Nedocromil sodium
Arachidonic acid turnover in membrane lipids of atopic asthmatics: effect of nedocromil sodium, **1066P**
Effects of nedocromil sodium in the treatment of non-allergic subjects with chronic obstructive pulmonary disease, **1022**
Treatment of nocturnal asthma with nedocromil sodium, **1225**
Neonatal respiratory distress, Foregut duplication cyst presenting as neonatal respiratory distress and haemoptysis, **287**
Neurofibromatosis, Progressive tracheal and superior vena caval compression caused by benign neurofibromatosis, **380**
Neuropeptide, Increased responsiveness to neuropeptide agonists and antagonists of small cell lung cancer cells that progressed from sensitive to resistant to chemotherapeutic drugs, **427P**
Neutral endopeptidase
Inhibition of neutral endopeptidase enhances the effects of inhaled atrial natriuretic peptide, **422P**
Neutral endopeptidase inhibition in rats with hypoxic pulmonary hypertension, **424P**
Neutral endopeptidase inhibitor, Effect of the oral neutral endopeptidase inhibitor candoxatril on bronchomotor tone and histamine reactivity in asthma, **421P**
Neutrophilia, Neutrophilia in induced sputum from smokers and ex-smokers is directly related to the severity of airflow limitation, **1078P**
Neutrophils
Desensitisation of neutrophil responses by systemic interleukin 8 in cystic fibrosis, **867**
Effect of fluticasone propionate on neutrophil chemotaxis, superoxide generation, and extracellular proteolytic activity in vitro, **207**
Effect of mediators from normal and fibrotic lung fibroblasts on neutrophil activation, **419P**
Effects of indomethacin on peripheral neutrophil function and lung secretions in bronchiectasis, **420P**
F-met-leu-phe receptors are increased in neutrophils from subjects with emphysema who continue to smoke, **419P**
Neutrophil adhesion and migration in a child with leucocyte adhesion deficiency, **419P**
Neutrophil elastase and cathepsin G mRNA and protein in Chediak-Higashi bone marrow, **420P**
Neutrophil sequestration and activation in the pulmonary vasculature in acute alveolitis, **406P**
Potential of recombinant secretory leucoprotease inhibitor in the prevention of neutrophil mediated matrix degradation, **567**
System for study factors influencing the destructive potential of normal human neutrophils, **418P**
Time course of neutrophil influx in experimental pneumonia, **1078P**
Nickel carbonyl gas, A Philadelphia summer: *adventitia*, **663**
Nifedipine, Effects of the Ca^{2+} antagonist nifedipine on isolated pulmonary arteries from normoxic and chronically hypoxic rats, **424P**
Nitric oxide
Aminoguanidine selectivity inhibits inducible nitric oxide synthase, **426P**
Comparison of the rate of reaction of nitric oxide with human whole blood and plasma: gaseous NO reacts more rapidly with red cells than plasma, **425P**
Difference between basal release of nitric oxide and response to acetylcholine in isolated lungs from patients with chronic obstructive lung disease, **425P**
Effect of chronic inhibition of NO synthase on pulmonary and renal resistance vessels in rats, **426P**
Effect of nitric oxide synthase inhibition on contractile responses to sumatriptan in bovine pulmonary arteries, **426P**
Effects of chronic oral treatment with a nitric oxide blocker, L-NAME, on hypoxic pulmonary vasoconstriction in the rat, **426P**
Endogenous nitric oxide is increased in the exhaled air of asthmatic patients, **395P**
Exhaled nitric oxide: effects of capsaicin in healthy humans and salbutamol in asthmatics, **1051P**
Use of a chemiluminescent method to study the chemical reaction of nitric oxide with biologically important molecules under physiological conditions, **425P**
Nitrogen dioxide
Effect of exposure to domestic concentrations of nitrogen dioxide on the airway response to inhaled house dust mite in asthma, **1048P**
Health effects of an episode of nitrogen dioxide air pollution in London, December 1991, **1053P**
Nocardia, Endobronchial nocardial infection: *letter*, **385**
Nocturnal nasal positive pressure ventilation, Nocturnal nasal positive pressure ventilation with supplemental oxygen therapy compared with oxygen therapy alone in stable hypercapnic COPD, **1049P**
Nocturnal oxygen desaturation, Nocturnal oxygen desaturation and exercise desaturation in subjects with chronic obstructive pulmonary disease, **1063P**
Non-Hodgkin's lymphoma, Pleural mesothelioma associated with non-Hodgkin's lymphoma, **1269**
Non-invasive assisted ventilation, Non-invasive assisted ventilation in the management of respiratory failure in acute severe asthma, **413P**
Non-small cell lung cancer
Analysis of published studies on the detection of extrathoracic metastases in patients presumed to have operable non-small cell lung cancer, **14**
Confirmatory activity of gemcitabine in non-small cell lung cancer, **428P**
Preoperative staging of patients with non-small cell lung cancer, **428P**
Northern Ireland, Asthma mortality and death certification in Northern Ireland, **141**
Northern Nigeria, Hospital admissions for asthma in Zaria, Northern Nigeria, **1073P**
Nose, Response of the nose to exercise in healthy subjects and in patients with rhinitis and asthma, **128**
Notices, 96, 192, 386, 530, 626, 730, 940, 1279
Nucleolar organiser regions, Comparison of nucleolar organiser regions and DNA flow cytometry in the evaluation of pleural effusion, **1152**
Nutritional state, Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**

O

Obeche dust, Sauna builder's asthma caused by obeche (*Triplochiton scleroxylon*) dust, **622**
Obstructed inspiration, Mechanism of pulse transit time lengthening during obstructed inspiration, **411P**
Obstruction, Fibreoptic bronchoscopic electrosurgery under local anaesthesia for rapid palliation in patients with central airway malignancies, **1243**
Obstructive airway disease, Differences in utilisation of asthma drugs between two neighbouring Swedish provinces: relation to prevalence of obstructive airway disease, **41**
Obstructive sleep apnoea
Altered diastolic filling in obstructive sleep apnoea, **1048P**
Daytime vigilance in patients with obstructive sleep apnoea before and after CPAP treatment, **412P**
Effect of short term hormone replacement in the treatment of obstructive sleep apnoea in postmenopausal women, **699**
Effect of submental stimulation for several consecutive nights in patients with obstructive sleep apnoea, **446**
Home oximetry studies in patients with suspected obstructive sleep apnoea, **1062P**
Increased thrombotic tendency in patients with obstructive sleep apnoea, **1062P**
Non-invasive beat to beat arterial blood pressure during non-REM sleep in obstructive sleep apnoea and snoring, **335**

Prediction of nasal continuous positive airway pressure (CPAP) in the treatment of obstructive sleep apnoea, **412P**
Respiratory muscle activity in obstructive sleep apnoea, **1048P**
Occupational lung disease, Management of the patient with occupational lung disease: *editorial*, **627**
Oedema, Estimation of the pulmonary haemodynamic response to hypoxia using Doppler echocardiography in subjects travelling to extreme altitudes: results from the British 40th anniversary Everest expedition, **391P**
Oesophageal lymphangioma, Lymphangioma of the oesophagus: a case report and review of the literature, **1267**
Oesophageal maximal relaxation rate, Slowing of sniff oesophageal maximal relaxation rate can be detected non-invasively, **429P**
Oesophagobronchial fistula, Congenital oesophagobronchial fistula in an adult involving left main bronchus, **835**
Oesophagogastrectomy, Oesophagogastrectomy and whole blood rheology: leucocyte priming in vivo? **419P**
Oilseed rape, Oilseed rape and seasonal symptoms, **352**
Olympus LTF semiflexible fibreoptic thoracoscope, Investigation of pleural effusion: the new Olympus LTF semiflexible fibreoptic thoracoscope in comparison with Abram's needle biopsy, **429P**
Oral contraceptive pill, Relation of pulmonary lymphangioleiomyomatosis to use of the oral contraceptive pill and fertility in the UK, **910**
Osteochondroma, Osteochondroma of the rib: an unusual cause of haemothorax, **618**
Ouabain, Effect of ouabain and salbutamol on transepithelial nasal potentials in patients with cystic fibrosis and healthy controls, **1076P**
Overseas students
Evaluation of TB screening for overseas students, **433P**
Increase of tuberculosis in overseas students of higher education in Edinburgh, Scotland in 1991: a taste of things to come? **433P**
Oxidant status, Effect of acute cigarette smoking on epithelial permeability, inflammation and oxidant status in the airspaces of chronic smokers, **1077P**
Oxidative response inhibitor, Characterisation of an oxidative response inhibitor produced by *Streptococcus pneumoniae*, **676**
Oximetric saturation, Oximetric saturation and end tidal CO_2 as predictors of respiratory failure in patients with acute obstructive pulmonary disease, **1074P**
Oximetry, Home oximetry studies in patients with suspected obstructive sleep apnoea, **1062P**
Oximetry/polysomnography, Validation of BTS guidelines for diagnosis of sleep apnoea hypopnoea syndrome, **1062P**
Oxitropium bromide, Effect of long term treatment with oxitropium bromide on airway secretion in chronic bronchitis and diffuse panbronchiolitis, **545**
Oxygen
Ambulatory oxygen therapy in kyphoscoliosis, **418P**
Breathless on Everest: *adventitia*, **249**, **269**
Correction of the single breath carbon monoxide transfer factor in exercise for variations in alveolar oxygen pressure, **82**
D(V-Pco_2) reflects both peripheral metabolism and changes in pulmonary ventilation in the pig hind limb under cardiopulmonary bypass, **430P**
North East Thames oxygen register: a pilot for a regional register, **418P**
Oxygen and ^{99m}Tc-MAA shunt estimations in patients with pulmonary arteriovenous malformations, **327**
Oxygen therapy and maturational differences in infants with bronchiolitis, **416P**
Predicting the severity of airways disease from arterial alveolar oxygen difference in children with bronchopulmonary dysplasia, **415P**
Randomised controlled study of nasal pressure support ventilation compared with oxygen therapy in stable hypercapnic chronic obstructive pulmonary disease, **413P**
Respiratory epithelial permeability to plasma proteins following exposure to 100% oxygen in rats, **407P**
Sleep quality in chronic heart failure: effects of oxygen and captopril, **1063P**
Travel for technology-dependent patients with respiratory disease, **77**
Oxygen cost of breathing, Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**
Oxygen free radicals, Role of free radicals in the pathogenesis of cystic fibrosis: *editorial*, **738**
Oxygen therapy
Nocturnal nasal positive pressure ventilation with supplemental oxygen therapy compared with oxygen therapy alone in stable hypercapnic COPD, **1049P**
Randomised controlled trial of nasal positive pressure ventilation plus LTOT compared with LTOT alone: effect on blood gases and quality of life, **1064P**
Use of ambulatory oxygen therapy with long term oxygen therapy, **1074P**

P
p53 gene product expression, p53 gene product expression in resected lung cancers, **1059P**
Panbronchiolitis
Bronchial responsiveness and acute bronchodilator response in chronic obstructive pulmonary disease and diffuse panbronchiolitis, **540**
Diffuse panbronchiolitis and cystic fibrosis: East meets West: *editorial*, **531**
Effect of long term treatment with oxitropium bromide on airway secretion in chronic bronchitis and diffuse panbronchiolitis, **545**
Pancoast syndrome, Pancoast syndrome caused by a high grade B cell lymphoma, **92**
Paracetamol, Acute lung injury in fulminant hepatic failure following paracetamol poisoning, **396P**
Passive smoking, Passive smoking and the health of children: *editorial*, **731**
Patent foramen ovale, Transient right-to-left shunting through a patent foramen ovale secondary to unilateral diaphragmatic paralysis, **933**
Patient safety, An audit of UK bronchoscopy procedures: patient safety, **1060P**
Peak expiratory flow
Comparison of circadian variations using FEV_1 and peak expiratory flow rates among normal and asthmatic subjects, **775**
Diurnal peak expiratory flow variability and a respiratory symptoms questionnaire in laboratory animal and flour workers, **401**
Effects of air pollution in wintertime on peak expiratory flow measurements in subjects with asthma or chronic bronchitis, **390P**
Influence of treatment on peak expiratory flow and its relation to airway hyperresponsiveness and symptoms, **1109**
Relationship between respiratory symptoms, medical history and PEF in primary school children, **1052P**
Peak flow based asthma, Peak flow based asthma self-management, **401P**
Peak flow manoeuvre, Effect of a mini-Wright meter on the frequency and content of the peak flow manoeuvre, **1057P**
Peak flow meters, Use of peak flow meters in acute asthma by patients and doctors, **389P**
Peak flow records, Refinement of the computer assisted analysis of serial peak flow records in the diagnosis of occupational asthma, **1073P**
Percutaneous dilational tracheostomy, Percutaneous dilational tracheostomy in the intensive care unit: a review of 50 cases, **405P**
Percutaneous intrathoracic biopsy, Percutaneous intrathoracic biopsy using the Biopty gun: five year experience in a district hospital, **404P**
Peripheral blood leucocytes
Cellular tropism of HIV-1 strains isolated simultaneously from peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
HIV-1 proviral DNA copy number in peripheral blood leucocytes and bronchoalveolar lavage cells of AIDS patients, **410P**
Peripheral mononuclear cells, Activation of peripheral blood mononuclear cells in bronchoalveolar lavage fluid from patients with sarcoidosis, **1146**
Peripheral mononuclear leucocytes, Effects of salbutamol therapy on human ß adrenergic receptors: peripheral mononuclear leucocytes compared with lung tissue, **1046P**
Permeability
Bronchoalveolar lavage and pulmonary capillary permeability after cardiopulmonary bypass, **406P**
Respiratory epithelial permeability to plasma proteins following exposure to 100% oxygen in rats, **407P**
Time course of permeability increase induced by hyperoxia in cultured endothelial cell monolayers, **407P**
Pertechnegas lung clearance, Pertechnegas lung clearance studies: a new method for study of pulmonary function, **1058P**
Phagocytes, Phagocyte function and cytokine production in community acquired pneumonia, **107**

Philadelphia, A Philadelphia summer: *adventitia*, **663**
Photodynamic therapy, Photodynamic therapy for treatment of bronchial carcinomas: *letter*, **289**
Phrenic nerve
Bilateral magnetic stimulation of the phrenic nerves using an anterior approach, **1058P**
Unilateral magnetic phrenic nerve stimulation in unilateral diaphragm paresis, **1058P**
Piece filters, Passage of bacteria through piece filters designed for use in tests of forced expiration, **1068P**
"Pink puffer" syndrome, Effect of cognitive and behavioural therapy on dyspnoea in the "pink puffer" syndrome, **393P**
Platelet activating factor antagonist, Effect of the PAF antagonist UK-74 505 on experimental lung injury in mice, **387P**
Pleural abrasion, Pleural abrasion via axillary thoracotomy in the era of video assisted thoracic surgery, **922**
Pleural aspiration cytology, Fluid volume in pleural aspiration cytology: how much is enough? **429P**
Pleural effusion
Comparison of nucleolar organiser regions and DNA flow cytometry in the evaluation of pleural effusion, **1152**
Efficacy of short term versus long term tube thoracostomy drainage before tetracycline pleurodesis in the treatment of malignant pleural effusions, **23**
Fluid volume in pleural aspiration cytology: how much is enough? **429P**
Investigation of pleural effusion: the new Olympus LTF semiflexible fibreoptic thoracoscope in comparison with Abram's needle biopsy, **429P**
Role of streptokinase in the treatment of acute loculated parapneumonic pleural effusions and empyema, **852**
Tuberculous pleural effusion: experience with six months of treatment with isoniazid and rifampicin, **1160**
Value of DNA analysis in addition to cytological testing in the diagnosis of malignant pleural effusions, **692**
Video assisted thoracoscopic pleurectomy in the management of persistent pleural effusion, **405P**
Pleural fluid, Pleural fluid characteristics in pulmonary brucellosis, **89**
Pleural mesothelioma
Malignant pleural mesothelioma: a study of 99 cases and a call for British Thoracic Society guidelines, **1061P**
Pleural mesothelioma associated with non-Hodgkin's lymphoma, **1269P**
Plexogenic arteriopathy, Plexogenic arteriopathy, **S39**
Pneumococcal antigen detection, Pneumococcal antigen detection in bronchoalveolar lavage fluid from patients with pneumonia, **872**
Pneumococcal pneumonia, Procaine penicillin is still appropriate for pneumococcal pneumonia, **1067P**
Pneumococcus, The pneumococcus: host-organism interactions and their implications for immunotherapy and immunoprophylaxis: *editorial*, **946**
Pneumoconiosis, Pneumoconiosis associated with lobar or segmental lung collapse, **390P**
Pneumocystis carinii
Analysis of genetic diversity in human-derived *Pneumocystis carinii* isolated from four geographical locations, **1077P**
Surfactant protein D interacts with *Pneumocystis carinii*, **411P**
***Pneumocystis carinii* infection**, Pulmonary pathology in AIDS: atypical *Pneumocystis carinii* infection and lymphoid interstitial pneumonia, **S46**
***Pneumocystis carinii* pneumonia**
Simplified exercise test for the initial differential diagnosis of *Pneumocystis carinii* pneumonia in HIV antibody positive patients, **112**: *letter*, **729**
Survival in HIV positive intravenous drug users after a first episode of *Pneumocystis carinii* pneumonia, **432P**
Pneumonectomy
Improved gas exchange after pneumonectomy in an adult with incomplete pulmonary vein atresia, **723**
Massive cerebral infarction after completion pneumonectomy for pulmonary torsion, **1274**
Pneumonectomy syndrome, Asphyxia while swallowing solid food caused by bronchial compression: a variant of the pneumonectomy syndrome, **382**
Pneumonia
Analysis of deaths due to pneumonia in Scottish subjects aged 15–64 years, **431P**
Blood culture quality in community acquired pneumonia, **1067P**
Community acquired pneumonia is commonly caused by *Chlamydia pneumoniae* in underdeveloped communities, **1067P**
Death from pneumonia in young adults, **1068P**
Functional status and microbiology in community acquired pneumonia in the elderly, **1067P**
Phagocyte function and cytokine production in community acquired pneumonia, **107**
Pulmonary infections in the tropics: impact of HIV infection, **370**
Re-evaluation of pneumonia requiring admission to an intensive care unit: a prospective study, **71**
Simplified exercise test for the initial differential diagnosis of *Pneumocystis carinii* pneumonia in HIV antibody positive patients, **112**: *letters*, **729**, **940**
Time course of neutrophil influx in experimental pneumonia, **1078P**
Pneumothorax
Mesenchymal cystic hamartoma of the lung: a rare cause of relapsing pneumothorax, **1175**
Pleural abrasion via axillary thoracotomy in the era of video assisted thoracic surgery, **922**
Pneumothorax following thoracic radiation therapy for Hodgkin's disease, **936**
Use of a Heimlich flutter valve for pneumothorax in cystic fibrosis, **1178**
Video assisted thoracoscopic surgery for secondary spontaneous pneumothorax in high risk patients, **405P**
Pollen induced rhinitis, Modification of concentration-response curves to inhaled methacholine after the pollen season in subjects with pollen induced rhinitis, **711**
Pollution, Asbestos on my desk: *adventitia*, **65**
Polymorphonuclear leucocytes, Characterisation of an oxidative response inhibitor produced by *Streptococcus pneumoniae*, **676**
Polysomnography
Computerised polysomnography: *letter*, **528**
Which polysomnographic variables best reflect daytime sleepiness? **1062P**
Position in sibship, Allergic sensitisation and position in the sibship: a national study of young British adults, **1053P**
Positive pressure ventilation, Nasal masks for domiciliary positive pressure ventilation: patient usage and complications, **811**
Postmenopausal women, Effect of short term hormone replacement in the treatment of obstructive sleep apnoea in postmenopausal women, **699**
Prawn workers, Asthma in prawn workers: serum antibody isotopes to prawn-derived tropomyosin identified by Western blotting, **399P**
Prednisolone
Comparison of prednisolone and mianserin on ventilatory exercise and psychometric variables in COPD, **418P**
In vivo effects of prednisolone on cellular infiltration and trafficking on the cutaneous tuberculin response in corticosteroid resistant bronchial asthma, **1051P**
Prednisone, Comparison of inhaled beclomethasone dipropionate 1000 μg twice daily and oral prednisone 10 mg once daily in asthmatic patients, **37**
Preflight assessment, Preflight assessment of patients with cryptogenic fibrosing alveolitis, **1069P**
Pregnancy, Is asthma in pregnancy affected by the sex of the fetus? **1071P**
Preoperative computed tomography
Preoperative computed tomographic scanning for staging lung cancer: *editorial*, **941**
Preoperative staging of carcinoma of the bronchus: can computed tomographic scanning reliably identify stage III tumours?, **951**
Preoperative screening, Preoperative screening for metastases in lung cancer: *editorial*, **1**
Primary ciliary dyskinesia, Fertility in men with primary ciliary dyskinesia presenting with respiratory infection, **684**
Primary pulmonary hypertension, Clinicopathological correlation in end stage primary pulmonary hypertension, **391P**
Procaine penicillin, Procaine penicillin is still appropriate for pneumococcal pneumonia, **1067P**
Prostacyclin, Effect of intravenous prostacyclin on the pulmonary circulation in systemic sclerosis, **390P**
Prostaglandin E_2, Production of PGE_2 by cultured bovine airway smooth muscle cells: regulation by cAMP, **1064P**
Pseudomonas, Effect of antibiotic therapy on lung function in cystic fibrosis patients with *Pseudomonas cepacia* colonisation compared with patients with *Pseudomonas aeruginosa* colonisation, **393P**
Pseudomonas aeruginosa
Colonisation of lung allografts with *Pseudomonas aeruginosa* in heart-lung transplant recipients with cystic fibrosis, **721**
Effect of salmeterol on cyclic AMP mediated slowing of human ciliary beat in vitro by the *Pseudomonas aeruginosa* toxin pyocyanin, **409P**

Lung function in bronchiectasis: the influence of chronic colonisation with *Pseudomonas aeruginosa*, **432P**
Radiological appearances of bronchopulmonary infection with *Pseudomonas aeruginosa* in HIV positive patients, **1068P**
Respiratory tract infection with *Pseudomonas aeruginosa* in late HIV disease, **1049P**
Pseudomonas cepacia
Do the medical requirements differ for adult cystic fibrosis patients infected with *Pseudomonas cepacia*? **1049P**
Effect of antibiotic treatment of inflammatory markers and lung function in cystic fibrosis patients with *Pseudomonas cepacia*, **803**
Pseudomonas cepacia in cystic fibrosis: *editorial*, **629**
Serum IgG response to an 80 kDa outer membrane protein of *Pseudomonas cepacia* in patients with cystic fibrosis, **414P**
Pseudotumour, Pseudotumour of the lung caused by *Mycobacterium malmoense* infection in an HIV positive patient, **179**: *letter*, **844**
Psychological morbidity, Psychological morbidity and coping skills in patients with brittle and non-brittle asthma, **1044P**
Psychosocial functioning, Psychosocial functioning of young adults with cystic fibrosis and their families, **798**
Pulmonary allograft rejection, Development of immunological assays to monitor pulmonary allograft rejection, **151**
Pulmonary arteries
Contractile responses of sumatriptan and 5-HT in human pulmonary arteries, **425P**
Enoximone causes vasorelaxation of isolated human pulmonary arteries, **1070P**
Serotonin and pulmonary artery vasoconstrictor responses in humans, **425P**
Pulmonary autoantigen, Localisation of a pulmonary autoantigen in cryptogenic fibrosing alveolitis, **1139**
Pulmonary blastoma, Pulmonary blastoma in an adult presenting as a chronic loculated effusion, **838**
Pulmonary capillary permeability, Bronchoalveolar lavage and pulmonary capillary permeability after cardiopulmonary bypass, **406P**
Pulmonary circulation
Adaptation and acclimatisation in humans and animals at high altitude, **S9**
Evolution and the pulmonary circulation, **S5**
The initiation of an interest in the pulmonary circulation, **S2**
Pulmonary fibrosis
Chronic pulmonary diseases: chronic obstructive pulmonary disease and idiopathic pulmonary fibrosis, **924**
Diffuse pulmonary fibrosis and the Hermansky-Pudlak syndrome, **617**
Value of video assisted biopsy in the management of pulmonary fibrosis, **1060P**
Pulmonary function, Respiratory symptoms and pulmonary function in airport workers, **401P**
Pulmonary hypertension
Dietary pulmonary hypertension, **S33**
Long term treatment of severe pulmonary hypertension with intravenous Iloprost, **1070P**
Neutral endopeptidase inhibition in rats with hypoxic pulmonary hypertension, **424P**
Pulmonary infarction, Total lung collapse after pulmonary infarction, **938**
Pulmonary infections, Pulmonary infections in the tropics: impact of HIV infection, **370**
Pulmonary infiltrates, Pulmonary infiltrates following bone marrow transplantation: *letters*, **624**, **1042**
Pulmonary lymphangioleiomyomatosis, Relation of pulmonary lymphangioleiomyomatosis to use of the oral contraceptive pill and fertility in the UK, **910**
Pulmonary metastases
Contralateral haemorrhagic pulmonary metastases ("choriocarcinoma syndrome") after pneumonectomy for primary pulmonary choriocarcinoma, **523**
Surgical resection for pulmonary metastases of sweat gland carcinoma, **181**
Pulmonary oedema, Delayed resolution of pulmonary oedema after cocaine/heroin abuse, **1038**
Pulmonary physiology, Pulmonary physiology in St Swithin's Hole: *adventitia*, **114**
Pulmonary rehabilitation
Can the shuttle walking test detect the effect of pulmonary rehabilitation? **1075P**
How to keep the customer satisfied, **279**
Setting up a pulmonary rehabilitation programme, **270**: *letter*, **729**
Pulmonary resection, Localised pulmonary resection for bronchiectasis in hypogammaglobulinaemic patients, **509**
Pulmonary resistance vessels
Brain natriuretic peptide is as potent a vasodilator as atrial natriuretic peptide in isolated rat pulmonary resistance vessels, **424P**
Effect of chronic inhibition of NO synthase on pulmonary and renal resistance vessels in rats, **426P**
Pulmonary sarcoidosis
Efficacy of azathioprine as a second line treatment in pulmonary sarcoidosis, **1069P**
Specification and quantitation of circulating immune complexes in the serum of patients with active pulmonary sarcoidosis, **688**
Pulmonary torsion, Massive cerebral infarction after completion pneumonectomy for pulmonary torsion, **1274**
Pulmonary vascular disease, Gas exchange abnormalities in pulmonary vascular and cardiac disease, **1169**
Pulmonary vein gas analysis, Pulmonary vein gas analysis is superior to peripheral arterial gas analysis for assessing individual donor lung function, **1070P**
Pulse transit time, Mechanism of pulse transit time lengthening during obstructed inspiration, **411P**
Pyocyanin, Effect of salmeterol on cyclic AMP mediated slowing of human ciliary beat in vitro by the *Pseudomonas aeruginosa* toxin pyocyanin, **409P**
Pyrexia of undetermined origin, Mycobacterial disease presenting as pyrexia of undetermined origin in patients with HIV infection and AIDS, **1055P**
Pyrrolizidine alkaloids, Dietary pulmonary hypertension, **S33**

Q
Quality of life
Health-related quality of life among patients with chronic obstructive pulmonary disease, **162**
Quality of life in chronic airflow limitation, **417P**
Quality of life in patients with COPD and severe hypoxaemia, **1074P**
Relation of lung function, maximal inspiratory pressure, dyspnoea, and quality of life with exercise capacity in patients with chronic obstructive pulmonary disease, **468**
Relationship between changes in spirometry and changes in quality of life during a two year study of inhaled beclomethasone in COPD, **1074P**
Queen's head, The case of the Queen's head: a confession: *adventitia*, **1133**
Questionnaire
Reliability and validity of the chronic respiratory questionnaire (CRQ), **465**: *letter*, **1277**
Repeatability of two new short airways questionnaires, **1075P**
Usefulness of questionnaire and clinical data in selecting patients for sleep studies, **1062P**

R
Radiation therapy, Pneumothorax following thoracic radiation therapy for Hodgkin's disease, **936**
Radiolabelled aerosols, Studies using radiolabelled aerosols in children, **1259**
RANTES, Lymphocyte chemokine RANTES is expressed in patients with fibrosing lung disease and also in normal lung, **408P**
Refugee populations, Tuberculosis in refugee populations in East London, **433P**
Rehabilitation, Asbestos on my desk: *adventitia*, **65**
Renal resistance vessels, Effect of chronic inhibition of NO synthase on pulmonary and renal resistance vessels in rats, **426P**
Renin-angiotensin system
Activation of the renin-angiotensin system by nebulised $ß_2$-agonists, **395P**
Activity of the renin-angiotensin system in acute severe asthma and the effect of angiotensin II on lung function, **492**
Effect of intravenous salbutamol on the activity of the renin-angiotensin system in asthma, **421P**
Respiration, A respiratory survey in a black Johannesburg workforce, **340**
Respiratory airflow measurements, Excursion-volume relation of the right hemidiaphragm measured by ultrasonography and respiratory airflow measurements, **885**
Respiratory disease, Travel for technology-dependent patients with respiratory disease, **77**
Respiratory distress, Foregut duplication cyst presenting as neonatal respiratory distress and haemoptysis, **287**
Respiratory effort, Respiratory effort perception at rest and during

carbon dioxide rebreathing in patients with dystrophia myotonica, 240: *letter*, **1181**
Respiratory failure
Oximetric saturation and end tidal CO_2 as predictors of respiratory failure in patients with acute obstructive pulmonary disease, **1074P**
Respiratory failure with diffuse patchy lung infiltrates: an unusual presentation of squamous cell carcinoma, **1271**
Ventilation-perfusion relationships in acute respiratory failure, **1251**
Respiratory function, Respiratory function at extreme altitude: results from the British 40th anniversary Everest expedition, **431P**
Respiratory function equipment, Passage of bacteria through piece filters designed for use in tests of forced expiration, **1068P**
Respiratory illness, Lung growth: implications for the development of disease: *editorial*, **440**
Respiratory infection
Fertility in men with primary ciliary dyskinesia presenting with respiratory infection, **684**
Importance of respiratory infection in general practice in the 1990s, **1066P**
Respiratory medicine, Information technology in a department of respiratory medicine: cost analysis, **1075P**
Respiratory mucosa, Assessment of an organ culture model incorporating an air interface for the study of bacterial interactions with human respiratory mucosa, **408P**
Respiratory muscle activity, Respiratory muscle activity in obstructive sleep apnoea, **1048P**
Respiratory muscle function, Lung and respiratory muscle function in limb girdle muscular dystrophy, **61**
Respiratory pressures, Effects of body position, hyperinflation, and blood gas tensions on maximal respiratory pressures in patients with chronic obstructive pulmonary disease, **453**
Respiratory rehabilitation, Respiratory rehabilitation, complementary and cost-effective, **1075P**
Respiratory symptoms
Air pollution and respiratory symptoms in a national sample of 23 year old subjects, **1045P**
Clinical relevance of testing for antineutrophil cytoplasm antibodies (ANCA) with a standard indirect immunofluorescence ANCA test in patients with upper or lower respiratory tract symptoms, **213**
Diurnal peak expiratory flow variability and a respiratory symptoms questionnaire in laboratory animal and flour workers, **401**
Influence of barn drying of fodder on respiratory symptoms and function in dairy farmers of the Doubs region of France, **50**
Relationship between respiratory symptoms, medical history and PEF in primary school children, **1052P**
Respiratory symptoms and pulmonary function in airport workers, **401P**
Respiratory symptoms of rural Fijian and Indian children in Fiji, **1201**
Upper and lower respiratory symptoms in two mushroom farms, **400P**
Respiratory tract, Effects of cigarette smoke on epithelial cells of the respiratory tract, **825**
Respiratory tract illness
Asymptomatic bronchial hyperreactivity, asthma and other respiratory tract illness in children, **1052P**
Asymptomatic bronchial hyperreactivity and the development of asthma and other respiratory tract illnesses in children, **757**
Resting energy expenditure
Effect of oral theophylline on resting energy expenditure in normal volunteers, **1116**
Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**
Resting energy expenditure and use of chronic nebulised $ß_2$ agonists, **1076P**
Restriction fragment length polymorphism, Analysis of restriction fragment length polymorphism for the HLA-DR gene in Japanese patients with sarcoidosis, **573**
Retropharyngeal abscess, Empyema and mediastinitis complicating retropharyngeal abscess, **1179**
Rhinitis, Response of the nose to exercise in healthy subjects and in patients with rhinitis and asthma, **128**
Rifampicin
Mycobacterium kansasii pulmonary infection: a prospective study of the results of nine months of treatment with rifampicin and ethambutol, **442**
Tuberculous pleural effusion: experience with six months of treatment with isoniazid and rifampicin, **1160**
Risk factors
Association of age, sex and smoking with total IgE and specific IgE in young adults living in East Anglia, **387P**
Effects of geography and gender on the prevalence of asthma symptoms, **387P**
Evidence for changing risk factors for chronic obstructive lung disease during the last 150 years, **416P**
Prevalence of asthma and risk factors among Chinese, Malay, and Indian adults in Singapore, **347**
Risk factors for readmission to hospital for asthma in childhood, **33**
Roof bolting coal miners, Asthma in roof bolting coal miners, **400P**

S
Salbutamol
Airway effects of low dose salbutamol and salmeterol in patients with asthma, **1046P**
Comparison of the effects of salbutamol and adrenaline on airway smooth muscle contractility in vitro and on bronchial reactivity in vivo, **1103**
Comparison of the effects of salmeterol and salbutamol on the endurance exercise capacity of men with mild asthma, **429P**
Dose ranging study to evaluate the effects of salbutamol on exercise induced $ß_2$ adrenoceptor responses in normal subjects, **1050P**
Effect of adding aminophylline infusion to nebulised salbutamol in severe acute asthma, **267**
Effect of intravenous salbutamol on the activity of the renin-angiotensin system in asthma, **421P**
Effect of ouabain and salbutamol on transepithelial nasal potentials in patients with cystic fibrosis and healthy controls, **1076P**
Effects of salbutamol therapy on human ß adrenergic receptors: peripheral mononuclear leucocytes compared with lung tissue, **1046P**
Exhaled nitric oxide: effects of capsaicin in healthy humans and salbutamol in asthmatics, **1051P**
Extrapulmonary effects of fenoterol and salbutamol in normal subjects: *letter*, **191**
Nebuliser performance, pharmacokinetics, airways and systemic effects of salbutamol given via a novel nebuliser delivery system (Ventstream), **762**
Nebuliser performance, systemic absorption, and efficacy of salbutamol delivered via a novel nubuliser system (Ventstream), **403P**
Poor output of salbutamol from a spacer device: effect of spacer static charge and multiple actuations, **402P**
Relative bioavailability of salbutamol to the lung following inhalation using metered dose inhalation methods and spacer devices, **549**: *letter*, **1183**
Salbutamol inhaler using a non-chlorinated propellant, GR106642X: systemic pharmacodynamic activity in healthy volunteers, **402P**
Systemic effects of salbutamol and salmeterol in patients with asthma, **771**, **1046P**
Volumatic usage: some generic salbutamol metered dose inhalers can be used, **1162**
Salmeterol
Airway effects of low dose salbutamol and salmeterol in patients with asthma, **1046P**
Comparison of addition of salmeterol with increase in inhaled steroids in adult asthmatics symptomatic on 200 g twice daily (bd) inhaled steroids, **403P**
Comparison of the effects of salmeterol and salbutamol on the endurance exercise capacity of men with mild asthma, **429P**
Effect of salmeterol on cyclic AMP mediated slowing of human ciliary beat in vitro by the *Pseudomonas aeruginosa* toxin pyocyanin, **409P**
Salmeterol inhaler using a non-chlorinated propellant, GR106642X: systemic pharmacodynamic activity in healthy volunteers, **402P**
Systemic effects of salbutamol and salmeterol in patients with asthma, **771**, **1046P**
Salmeterol xinafoate, Salmeterol xinafoate in the treatment of mild to moderate asthma in primary care, **971**
Sarcoidosis
Activation of peripheral blood mononuclear cells in bronchoalveolar lavage fluid from patients with sarcoidosis, **1146**
Agalactosyl IgG antibody levels are elevated in patients with sarcoidosis and their spouses, **407P**
Alveolar macrophages from patients with fibrosing alveolitis secrete more TNF than patients with sarcoidosis and normal individuals, **408P**

Analysis of restriction fragment length polymorphism for the HLA-DR gene in Japanese patients with sarcoidosis, **573**
Clonal analysis of lung and blood T cells in patients with sarcoidosis, **577**
Efficacy of azathioprine as a second line treatment in pulmonary sarcoidosis, **1069P**
Inability to produce IgG_4 in the lungs in sarcoidosis is modified by treatment, **398P**
Pulmonary sarcoidosis with a diffuse ground glass pattern on the chest radiograph, **793**
Specification and quantitation of circulating immune complexes in the serum of patients with active pulmonary sarcoidosis, **688**

Sarcoma, Eosinophilic endomyocardial disease due to high grade chest wall sarcoma, **1040**

Sauna builder's asthma, Sauna builder's asthma caused by obeche (*Triplochiton scleroxylon*) dust, **622**

Scintigraphy, Imaging of pulmonary disease in scleroderma with J001X scintigraphy, **504**

Scleroderma, Imaging of pulmonary disease in scleroderma with J001X scintigraphy, **504**

Scoliosis, Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**

Seasonal symptoms, Oilseed rape and seasonal symptoms, **352**

Secretory leucoprotease inhibitor, Potential of recombinant secretory leucoprotease inhibitor in the prevention of neutrophil mediated matrix degradation, **567**

L-Selectin, Expression of circulating membrane bound receptors (CD11b/18, CD14, CD15, L-selectin) from patients at risk of the adult respiratory distress syndrome does not predict subsequent lung injury and ARDS, **406P**

L-Selectin adhesion receptor, Altered levels of soluble L-selectin adhesion receptor in plasma is correlated with development of the adult respiratory distress syndrome in at risk patient groups, **397P**

SF-36, Health status measured by SF-36 in recipients of domiciliary nasal intermittent positive pressure ventilation, **413P**

Shipyard workers, Increased airway responsiveness among shipyard workers exposed to welding fume, **400P**

Shunts
Measurement of right to left shunt in patients with the hepatopulmonary syndrome, **431P**
Ventilatory chemosensitivity in patients with intrapulmonary shunts, **430P**

Shuttle walking test, Can the shuttle walking test detect the effect of pulmonary rehabilitation? **1075P**

Singapore, Prevalence of asthma and risk factors among Chinese, Malay, and Indian adults in Singapore, **347**

Singaporean children, Lung function reference values in Singaporean children aged 6–18 years, **901**

SK&F 106203, Magnitude and duration of the inhibitory effects of SK&F 106203 on LTD_4 induced bronchoconstriction in healthy volunteers, **422P**

Sleep
Continuous non-invasive monitoring of evolving acute severe asthma during sleep, **613**
Nocturnal nasal positive pressure ventilation with supplemental oxygen therapy compared with oxygen therapy alone in stable hypercapnic COPD, **1049P**
Obstructive apnoeas in Duchenne muscular dystrophy, **157**
Sleep hypoxia in myotonic dystrophy and its correlation with awake respiratory function, **66**
Sleep quality in chronic heart failure: effects of oxygen and captopril, **1063P**
Usefulness of questionnaire and clinical data in selecting patients for sleep studies, **1062P**

Sleep apnoea
Clinical usefulness of the Epworth sleepiness scale in suspected sleep apnoea, **411P**
Effects of CPAP on daytime function in the sleep apnoea/hypopnoea syndrome, **412P**

Sleep apnoea/hypopnoea syndrome
Atrial natriuretic peptide levels in the sleep apnoea/hypopnoea syndrome, **920**
Compliance with CPAP therapy in patients with the sleep apnoea/hypopnoea syndrome, **263**
Validation of BTS guidelines for diagnosis of sleep apnoea hypopnoea syndrome, **1062P**

Sleep disordered breathing
Natural history of snoring/sleep disordered breathing and behaviour problems in young children, **413P**
Sleep disordered breathing, behaviour, and psychological functioning in children: effects of adenotonsillectomy, **413P**

Sleepiness, Which polysomnographic variables best reflect daytime sleepiness? **1062P**

Sloughing, Bronchial obstruction due to respiratory mucosal sloughing in toxic epidermal necrolysis, **935**

Small cell lung cancer (carcinoma)
Feasibility of using glycosylated recombinant human granulocyte colony stimulating factor to increase the dose intensity of doxorubicin, cyclophosphamide and etoposide in small cell lung cancer, **428**
Gastrin in small cell lung cancer: cloning of the receptor, Ca^{2+} mobilisation and growth, **427P**
Imaging of small cell lung cancer with a radiolabelled somatostatin analogue, **428P**
Increased responsiveness to neuropeptide agonists and antagonists of small cell lung cancer cells that progressed from sensitive to resistant to chemotherapeutic drugs, **427P**
Surgical resection for small cell carcinoma of the lung: a retrospective study, **20**: *letter*, **624**

Smoke, Temporal association between hospital admissions for asthma in Birmingham and ambient levels of sulphur dioxide and smoke, **133**: *letter*, **1042**

Smokers, Neutrophilia in induced sputum from smokers and exsmokers is directly related to the severity of airflow limitation, **1078P**

Smoking
Effect of acute cigarette smoking on epithelial permeability, inflammation and oxidant status in the airspaces of chronic smokers, **1077P**
Effects of cigarette smoke on epithelial cells of the respiratory tract, **825**
F-met-leu-phe receptors are increased in neutrophils from subjects with emphysema who continue to smoke, **419P**
Lung structure and function in cigarette smokers, **473**: *letter*, **1276**
Passive smoking and the health of children: *editorial*, **731**
Prevalence of ever-smoking in young Irish adults: variation with rural or inner city dwelling (European Commission Respiratory Health Survey), **1054P**
Relation of serum IgE, eosinophils, smoking, and bronchial responsiveness to FEV_1/FVC in a middle aged and elderly population, **416P**
Relation of smoking to immunoreactive endothelin in the bronchiolar epithelial cells, **786**

Smooth muscle cells, Transfection of cultured human airway smooth muscle cells with ß-galactosidase reporter construct, **423P**

Sniff nasal pressure, Inspiratory muscle relaxation rate assessed from sniff nasal pressure, **1127**

Snoring
Changes in snoring characteristics after 30 days of nasal continuous positive airway pressure in patients with non-apnoeic snoring, **562**
Effect of UPPP on snoring volume, **1061P**
Familial predisposition to snoring: *letter*, **95**
Natural history of snoring/sleep disordered breathing and behaviour problems in young children, **413P**
Non-invasive beat to beat arterial blood pressure during non-REM sleep in obstructive sleep apnoea and snoring, **335**

Sodium cromoglycate
Height velocity standard deviation scores in 162 prepubertal children receiving beclomethasone dipropionate, budesonide or sodium cromoglycate, **399P**
Improvement in sodium cromoglycate delivery from a spacer device: *letter*, **289**

Sodium excretion, Effects of angiotensin converting enzyme inhibition on sodium excretion in patients with hypoxaemic chronic obstructive pulmonary disease, **995**

Sodium intake, Dietary sodium intake and the risk of airway hyperreactivity in a random adult population, **875**

Sodium metabisulphite
Cross refractoriness between sodium metabisulphite and exercise induced asthma, **245**
Effect of acetazolamide and amiloride against sodium metabisulphite-induced bronchoconstriction in mild asthma, **1096**
Effect of inhaled heparin on bronchial reactivity to sodium metabisulphite and methacholine in subjects with asthma, **1064P**
Inhibition of sodium metabisulphite induced bronchoconstriction by frusemide in asthma: role of cyclooxygenase products, **307**

Solenoid valve, Solenoid valve *v* weighted plunger in incremental inspiratory threshold loading: *letter*, **94**

Somatostatin analogue, Imaging of small cell lung cancer with a radiolabelled somatostatin analogue, **428P**
Soybean dust
Clinical and functional characteristics of patients two years after being affected by the soybean asthma epidemic in Barcelona, **906**
Does soybean dust-induced asthma have specific immunohistochemical features? **1065P**
Spacer device
Delivery of beclomethasone dipropionate from a spacer device, **961**
Improvement in sodium cromoglycate delivery from a spacer device: *letter*, **289**
Relative bioavailability of salbutamol to the lung following inhalation using metered dose inhalation methods and spacer devices, **549**: *letter*, **1183**
Specific airway conductance, Tidal breathing parameters and specific airway conductance in early life, **416P**
Spirometer, Evaluation of a new electronic spirometer: the Vitalograph "Escort" spirometer, **175**
Spirometer dead space volume, Effect of changing spirometer dead space volume on the accuracy and repeatability of lung function tests, **1057P**
Spirometry, Relationship between changes in spirometry and changes in quality of life during a two year study of inhaled beclomethasone in COPD, **1074P**
Splenosis, Thoracic splenosis, **1020**
Sputum
Preliminary report on in vivo reduction of sputum visco-elasticity in cystic fibrosis patients treated with aerosolised recombinant human DNase, **394P**
Study of the usefulness of sputum microscopy and culture in general practice, **1066P**
Squamous cell carcinoma, Respiratory failure with diffuse patchy lung infiltrates: an unusual presentation of squamous cell carcinoma, **1271**
Staff safety, An audit of UK bronchoscopy procedures: staff safety, **1060P**
Stapled bronchial closure, Experimental evaluation of the strength of stapled bronchial closure in human cadavers versus sutured closure, **1061P**
Status asthmaticus, Response to ketamine in status asthmaticus resistant to maximal medical treatment, **90**
Stents
Insertion of a self-expandable endotracheal metal stent using topical anaesthesia and a fibreoptic bronchoscope: a comfortable way to offer palliation, **87**
Treatment of superior vena cava obstruction with expandable metal stents, **404P**
Steroids
Comparison of addition of salmeterol with increase in inhaled steroids in adult asthmatics symptomatic on 200 g twice daily (bd) inhaled steroids, **403P**
Corticosteroid trial reproducibility in COPD, **392P**
Effect of withdrawal of inhaled steroids in patients with chronic obstructive pulmonary disease, **392P**
Inhaled steroids in obstructive lung disease in Europe: the ISOLDE trial, protocol and progress, **417P**
Toothbrushes act as a potential source of oral candidiasis in patients on inhaled steroids, **1072P**
Streptococcus pneumoniae, Characterisation of an oxidative response inhibitor produced by *Streptococcus pneumoniae*, **676**
Streptokinase
Intrapleural streptokinase in the management of empyema, **856**
Role of streptokinase in the treatment of acute loculated parapneumonic pleural effusions and empyema, **852**
Submarine escape training, Pulmonary barotrauma in submarine escape training, **186**
Submental stimulation, Effect of submental stimulation for several consecutive nights in patients with obstructive sleep apnoea, **446**
Subminimal inhibitory concentration, Effects of subminimal inhibitory concentration (MIC) of antibiotics on the morphology of non-typable *Haemophilus influenzae*, **409P**
Sudden infant death, Recent developments in research into sudden infant death: *editorial*, **196**
Sulphur dioxide
Comparison of sulphur dioxide and metabisulphite airway reactivity in subjects with asthma, **250**
Temporal association between hospital admissions for asthma in Birmingham and ambient levels of sulphur dioxide and smoke, **133**: *letter*, **1042**
Sumatriptan
Contractile responses of sumatriptan and 5-HT in human pulmonary arteries, **425P**
Effect of nitric oxide synthase inhibition on contractile responses to sumatriptan in bovine pulmonary arteries, **426P**
Superior vena cava
Progressive tracheal and superior vena caval compression caused by benign neurofibromatosis, **380**
Treatment of superior vena cava obstruction with expandable metal stents, **404P**
Superoxide dismutase, Effect of superoxide dismutase on hypoxic pulmonary vasoconstriction after ischaemia-reperfusion in the isolated blood perfused rat lung, **424P**
Superoxide generation, Effect of fluticasone propionate on neutrophil chemotaxis, superoxide generation, and extracellular proteolytic activity in vitro, **207**
Surfactant protein D, Surfactant protein D interacts with *Pneumocystis carinii*, **411P**
Surgery, Surgical resection for small cell carcinoma of the lung: a retrospective study, **20**: *letter*, **624**
Sutured closure, Experimental evaluation of the strength of stapled bronchial closure in human cadavers versus sutured closure, **1061P**
Sweat gland carcinoma, Surgical resection for pulmonary metastases of sweat gland carcinoma, **181**
Sweden, Differences in utilisation of asthma drugs between two neighbouring Swedish provinces: relation to prevalence of obstructive airway disease, **41**
Syringes, Effects of sample storage time, temperature and syringe type on blood gas tensions in samples with high oxygen partial pressures, **610**
Systemic sclerosis
Correlation of echocardiography and right heart catheter in systemic sclerosis, **431P**
Effect of intravenous prostacyclin on the pulmonary circulation in systemic sclerosis, **390P**
Functional impairment in fibrosing alveolitis after matching for CT findings, demographic factors and smoking: a comparison between cryptogenic fibrosing alveolitis and the fibrosing alveolitis of systemic sclerosis, **395P**

T
T cells
Clonal analysis of lung and blood T cells in patients with sarcoidosis, **577**
Flow cytometric analysis of BAL and peripheral blood T lymphocyte cytokine-generating potential in asthmatics and non-asthmatics, **1065P**
T cell receptor Vß gene usage is not restricted in tuberculous pleural effusions, **410P**
Transcriptional regulation of IL-5 gene expression in human T cells, **421P**
Technetium-99m labelled albumin macroaggregates, Oxygen and ^{99m}Tc-MAA shunt estimations in patients with pulmonary arteriovenous malformations, **327**
Terbutaline
A placebo controlled comparison of the effect of oral bambuterol and inhaled terbutaline against exercise induced asthma, **403P**
Comparison of terbutaline and placebo from a pressurised metered dose inhaler and a dry powder inhaler in a subgroup of patients with asthma, **1228**
Effect of the addition of terbutaline therapy on the airway response to inhaled budesonide, **1047P**
Effect of increasing doses of beta agonists on spirometric parameters, exercise capacity, and quality of life in patients with chronic airflow limitation, **479**
Pulmonary deposition and effect of terbutaline administered by metered dose inhaler or Turbohaler, **402P**
Tetracycline pleurodesis, Efficacy of short term versus long term tube thoracostomy drainage before tetracycline pleurodesis in the treatment of malignant pleural effusions, **23**
Textile workers, Chronic bronchitis in textile workers in Lancashire, **1054P**
Theophylline
Effect of low dose oral theophylline on bronchial wall eosinophils after allergen challenge in atopic asthma, **1066P**
Effect of oral theophylline on resting energy expenditure in normal volunteers, **1116**
Effect of theophylline on exercise performance in patients with severe chronic obstructive pulmonary disease, **332**: *letter*, **1182**
What role for theophylline? *editorial*, **97**

Withdrawing chronic theophylline causes immunomodulation in the blood of asthmatic patients, **396P**
Withdrawing chronic theophylline treatment increases airway lymphocytes in asthma, **396P**
Thiols, Effect of *N*-acetyl cysteine on the concentrations of thiols in plasma, bronchoalveolar lavage fluid, and lung tissue, **670**
Thoracic physicians, Changes in the management of acute severe asthma by general and thoracic physicians in Manchester between 1985 and 1990–1, **1044P**
Thoracic splenosis, Thoracic splenosis, **1020**
Thoracoplasty
Long term non-invasive domiciliary assisted ventilation for respiratory failure following thoracoplasty, **915**
Resting energy expenditure and nutritional state of patients with increased oxygen cost of breathing due to emphysema, scoliosis and thoracoplasty, **781**
Thoracoscopic lung biopsy, Three year review of video assisted thoracoscopic lung biopsy, **1060P**
Thoracoscopic treatment, Thoracoscopic treatment of postoperative chylothorax after coronary bypass surgery, **1273**
Thorax, Annual Report October 1993-September 1994, **1192**
Threshold loading, Solenoid valve *v* weighted plunger in incremental inspiratory threshold loading: *letter*, **94**
Thrombosis, Increased thrombotic tendency in patients with obstructive sleep apnoea, **1062P**
Thymus, Carcinoid tumours of the thymus, **357**
Tidal breathing parameters, Tidal breathing parameters and specific airway conductance in early life, **416P**
Time delay, Effect of a time delay on capillary blood gas analysis, **1058P**
Toothbrushes, Toothbrushes act as a potential source of oral candidiasis in patients on inhaled steroids, **1072P**
Totally implanted catheter systems, Spontaneous migration of totally implanted venous catheter systems from subclavian into jugular veins, **281**
Toxic epidermal necrolysis, Bronchial obstruction due to respiratory mucosal sloughing in toxic epidermal necrolysis, **935**
Toxic oil syndrome, Dietary pulmonary hypertension, **S33**
Trachea, tracheal
Progressive tracheal and superior vena caval compression caused by benign neurofibromatosis, **380**
Tracheal gas insufflation: a useful adjunct to ventilation? *editorial*, **735**
Tracheal schwannoma: management by endoscopic laser resection, **85**
Tracheal stenosis due to bilateral arterial aneurysms, **183**
Upper airway obstruction due to inoperable intrathoracic goitre treated by tracheal endoprosthesis, **1034**
Tracheobronchial tumours, Insertion of a self-expandable endotracheal metal stent using topical anaesthesia and a fibreoptic bronchoscope: a comfortable way to offer palliation, **87**
Tracheobronchomegaly, Tracheobronchomegaly: an unusual presentation of a rare condition, **840**
Tracheostomy, Percutaneous dilational tracheostomy in the intensive care unit: a review of 50 cases, **405P**
Transdiaphragmatic pressure, Diaphragmatic excursion correlated with transdiaphragmatic pressure during slow inspirations and sniffs, **430P**
Transdiaphragmatic twitch pressure, Effect of lung volume on the transdiaphragmatic twitch pressure, **430P**
Transepithelial nasal potentials, Effect of ouabain and salbutamol on transepithelial nasal potentials in patients with cystic fibrosis and healthy controls, **1076P**
Transfer factor, Measurement of transfer factor during constant exhalation, **1121**
Transforming growth factor ß, Transforming growth factor ß in normal human lung: preferential location in bronchial epithelial cells, **789**
Transforming growth factor $ß_1$, Transforming growth factor $ß_1$ gene expression in human airways, **225**
Transient iron overload, Transient iron overload with bleomycin detectable iron in the plasma of patients with adult respiratory distress syndrome, **707**
Transient right-to-left shunting, Transient right-to-left shunting through a patent foramen ovale secondary to unilateral diaphragmatic paralysis, **933**
Transmucosal potential difference, Effect of exercise on the nasal transmucosal potential difference in patients with cystic fibrosis and normal subjects, **1249**
Travel, Travel for technology-dependent patients with respiratory disease, **77**
Triplochiton scleroxylon, Sauna builder's asthma caused by obeche (*Triplochiton scleroxylon*) dust, **622**
Tropical infections, Acute tropical infections and the lung, **714**
Tropomyosin, Asthma in prawn workers: serum antibody isotopes to prawn-derived tropomyosin identified by Western blotting, **399P**
Tube thoracostomy drainage, Efficacy of short term versus long term tube thoracostomy drainage before tetracycline pleurodesis in the treatment of malignant pleural effusions, **23**
Tuberculin, In vivo effects of prednisolone on cellular infiltration and trafficking on the cutaneous tuberculin response in corticosteroid resistant bronchial asthma, **1051P**
Tuberculosis
Analysis of the frequency of drug reactions to antituberculosis drugs, **433P**
Changing epidemiology of tuberculosis in Lambeth, London, **1056P**
Characteristics of patients with drug resistant and drug sensitive tuberculosis in east London, **434P**
Characteristics of patients with drug resistant and drug sensitive tuberculosis in East London between 1984 and 1992, **808**
Childhood tuberculosis in Leeds, 1982–90: social and ethnic factors and the role of the contact clinic in diagnosis, **184**
Control and prevention of tuberculosis in the United Kingdom: Code of Practice 1994, **1193**
Deaths in notified cases of tuberculosis in Edinburgh 1983–92, **1055P**
Disease due to *Mycobacterium tuberculosis* is less common than expected in HIV positive patients in Edinburgh, **1055P**
Drug resistant tuberculosis in south east England, 1981–92, in HIV and non-HIV populations, **434P**
Evaluation of TB screening for overseas students, **433P**
Impact of human immunodeficiency virus on tuberculosis in developing countries, **511**: *letter*, **1278**
Increase in tuberculosis notifications: younger women show the greatest increase, **433P**
Increase of tuberculosis in overseas students of higher education in Edinburgh, Scotland in 1991: a taste of things to come? **433P**
Introduction to tropical respiratory medicine, **369**
Is tuberculosis transmitted between ethnic groups? **1055P**
Mycobacterial infection in Newcastle, 1990–1993: an analysis from the Newcastle TB register, **432P**
Nosocomial transmission of tuberculosis in an HIV care centre in the UK identified by RFLP analysis, **1055P**
Time for a new timetable of tuberculosis? **1056P**
Trends in mortality from tuberculosis, **1055P**
Tuberculosis and HIV: light after darkness: *editorial*, **537**
Tuberculosis in refugee populations in East London, **433P**
Tuberculosis in the UK, 1994: current issues and future trends: *editorial*, **1085**
Value of contact procedures for tuberculosis in Edinburgh, 1982–91, **1056P**
Tuberculous infection, Use of the 1 tuberculin unit (TU) Mantoux test in the assessment of tuberculous infection in children following neonatal BCG vaccination, **1006**
Tuberculous pleural effusion
T cell receptor Vß gene usage is not restricted in tuberculous pleural effusions, **410P**
Tuberculous pleural effusion: experience with six months of treatment with isoniazid and rifampicin, **1160**
Tumour necrosis factor, Role of TNF in the increased airspace epithelial permeability in acute lung inflammation, **397P**
Tumour necrosis factor-alpha
Alveolar macrophages from patients with fibrosing alveolitis secrete more TNF than patients with sarcoidosis and normal individuals, **408P**
Reduction of LPS-induced tumour necrosis factor-alpha release by macrophages/monocytes in response to interluekin **10**, **1078P**
Tumour obstruction, Fibreoptic bronchoscopic electrosurgery under local anaesthesia for rapid palliation in patients with central airway malignancies, **1243**
Turbohaler, Pulmonary deposition and effectof terbutaline administered by metered dose inhaler or Turbohaler, **402P**
Twitch potentiation, Potentiation of diaphragmatic twitch after voluntary contraction in normal subjects, **1234**

U

UK-74 505, Effect of the PAF antagonist UK-74 505 on experimental lung injury in mice, **387P**
Ultrasonography
Diaphragmatic movement in hemiplegic patients measured by ultrasonography, **890**

Excursion-volume relation of the right hemidiaphragm measured by ultrasonography and respiratory airflow measurements, **885**
Ultrasound assessment of normal hemidiaphragmatic movement: relation to inspiratory volume, **500**: *letter*, **1278**
Upper airway calibre, Effect of age and sex on upper airway calibre, **411P**
Upper airway dysfunction, Clinical significance of upper airway dysfunction in motor neurone disease, **896**
Upper respiratory tract inflammation, Ciliary disorientation in patients with chronic upper respiratory tract inflammation, **409P**
Uvulopalatopharyngoplasty, Effect of UPPP on snoring volume, **1061P**

V

Vaccination, Influenza vaccination: *editorial*, **1079**
Valvulitis, Aortic valvulitis complicating Wegener's granulomatosis, **1176**
Vas deferens, Chloride impermeability in the airways of males with congenital bilateral absence of the vas deferens, **394P**
Vasculature, Neutrophil sequestration and activation in the pulmonary vasculature in acute alveolitis, **406P**
Vasoconstriction assay, Equipotency of budesonide and fluticasone propionate in the vasoconstriction assay, **422P**
Vasorelaxation, Enoximone causes vasorelaxation of isolated human pulmonary arteries, **1070P**
Ventilation
Effect of detergent on alveolar particle clearance due to large tidal ventilation, **147**
Long term non-invasive domiciliary assisted ventilation for respiratory failure following thoracoplasty, **915**
Maximum relaxation rate of the diaphragm during weaning from mechanical ventilation, **54**
Tracheal gas insufflation: a useful adjunct to ventilation? *editorial*, **735**
Use of mechanical ventilation in British domestic dwellings and mite control, **1048P**
Ventilation in severe acute asthma: *editorial*, **297**
Ventilation-perfusion relationships, Ventilation-perfusion relationships in acute respiratory failure, **1251**
Ventilatory failure, Impaired voluntary drive to breathe: a possible link between depression and unexplained ventilatory failure in asthmatic patients, **881**
Ventilatory function
Association of intrauterine and postnatal growth with ventilatory function in early adult life, **1052P**
Ventilatory function of young adults who had asthma or wheezy bronchitis in childhood: a national birth cohort study, **1046P**
Ventstream
Nebuliser performance, pharmacokinetics, airways and systemic effects of salbutamol given via a novel nebuliser delivery system (Ventstream), **762**
Nebuliser performance, systemic absorption, and efficacy of salbutamol delivered via a novel nebuliser system (Ventstream), **403P**
Video assisted biopsy
Efficacy of video assisted thoracoscopic lung biopsy: an historical comparison with open lung biopsy, **361**
Three year review of video assisted thoracoscopic lung biopsy, **1060P**
Value of video assisted biopsy in the management of pulmonary fibrosis, **1060P**
Video assisted thoracic surgery, Pleural abrasion via axillary thoracotomy in the era of video assisted thoracic surgery, **922**
Video assisted thoracoscopic pleurectomy, Video assisted thoracoscopic pleurectomy in the management of persistent pleural effusion, **405P**
Video assisted thoracoscopic surgery, Video assisted thoracoscopic surgery for secondary spontaneous pneumothorax in high risk patients, **405P**
Viral gene products, Type I collagen formation in rat type II alveolar cells immortalised by viral gene products, **201**
Viral infections, Role of viral infections in the inception of asthma and allergies during childhood: could they be protective? *editorial*, **1189**
Viral respiratory tract infections, Influenza immunisation status and viral respiratory tract infections in patients with chronic airflow limitation, **1067P**
Vitalograph "Escort" spirometer, Evaluation of a new electronic spirometer: the Vitalograph "Escort" spirometer, **175**
Vitamin C, Dietary intake of vitamins C and E and lung function in older people, **1053P**
Vitamin E
Dietary intake of vitamins C and E and lung function in older people, **1053P**
Plasma vitamin E levels in patients with cryptogenic fibrosing alveolitis, **1078P**
Volumatic usage, Volumatic usage: some generic salbutamol metered dose inhalers can be used, **1162**
Voluntary drive, Impaired voluntary drive to breathe: a possible link between depression and unexplained ventilatory failure in asthmatic patients, **881**

W

Weal diameter, Effect of weal diameter on definition of atopy, **398P**
Wegener's granulomatosis, Aortic valvulitis complicating Wegener's granulomatosis, **1176**
Weighted plunger, Solenoid valve *v* weighted plunger in incremental inspiratory threshold loading: *letter*, **94**
Welding fume, Increased airway responsiveness among shipyard workers exposed to welding fume, **400P**
Wheezing, Dietary magnesium intake, lung function, wheezing, and airway hyperreactivity in a random adult population sample, **1053P**
Wheezing illness, Comparison of the prevalence and aetiology of wheezing illness at age 16 in 1974 and 1986, **1052P**
Wheezy bronchitis, Ventilatory function of young adults who had asthma or wheezy bronchitis in childhood: a national birth cohort study, **1046P**
Whitener stains, Non-specific fluorescent whitener stains in the rapid recognition of pulmonary dirofilariasis, **590**
Worms, Asthma and the common cold: can viruses imitate worms? *editorial*, **101**

Z

ZD2138
Effect of the 5-lipoxygenase inhibitor ZD2138 on allergen-induced early and late asthmatic responses, **743**
Effect of the 5-lipoxygenase inhibitor ZD2138 on aspirin-induced asthma, **749**
Zone of apposition, Dynamic changes in the zone of apposition and diaphragm length during maximal respiratory efforts, **634**
